Report of Independent Auditors

To the Board of Commissioners of the Port of Portland

In our opinion, the financial statements of the Airport and Marine & Other Activities, which collectively comprise the financial statements of the Port of Portland (the "Port") as listed in the table of contents, present fairly, in all material respects, the financial position at June 30, 2010, the changes in financial position and cash flows of the Airport and Marine & Other Activities, respectively, for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Port's management. Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1 to the financial statements the Port adopted Governmental Accounting Standards Board Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, effective July 1, 2009.

The Management's Discussion and Analysis and Supplementary Information, as listed in the Table of Contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit this information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Port's basic financial statements. The Supplementary Information, as listed in the Table of Contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Supplementary Information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Ву:_

Michael MacBryde, Partner

Portland, Oregon October 28, 2010

MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis of the Port of Portland's (Port) financial performance provides an overview of the Port's financial activities for the fiscal year ended June 30, 2010. Please read it in conjunction with the Port's financial statements, which follow this section.

Overview of the Financial Statements:

This audit report consists of three parts - management's discussion and analysis (this section), the basic financial statements (including notes), and supplementary information. The report is guided by accounting and reporting principles established by the Governmental Accounting Standards Board (GASB), and also by the Oregon Secretary of State (OSS). The basic financial statements are prepared on the accrual basis, similar to a private business, whereby revenues are recognized when earned and expenses are recognized when incurred, regardless of when cash is received or paid. The basic financial statements consist of a balance sheet, which includes the Port's assets, liabilities, and net assets (assets minus liabilities) at year end; statement of revenues, expenses, and changes in net assets, which includes all revenues, expenses, and grants expended for construction for the year; and statement of cash flows, which presents the sources and uses of cash for the year. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. Following the financial statements is a section of supplementary information, nearly all of which is required by the GASB, the OSS, or bond ordinances. The Port's two activities are Airport (Portland International Airport) and Marine & Other (marine terminals, property and development services, environmental, navigation, general aviation, engineering, and administration). These activities are described in Notes 1 and 2 to the financial statements. Of special significance to readers of the financial statements is that, with certain limited exceptions, Airport monies are restricted by bond ordinances and Federal Aviation Administration regulations for use at the Airport only. Airport net revenues (essentially operating revenues less operating expenses other than depreciation) are largely determined by bond ordinances and contracts with airlines, as more fully explained in Note 7 to the financial statements.

Financial Results:

The Port's total net assets increased \$76.8 million from the 2009 amount, or 7.9 percent. Unrestricted net assets – the portion of net assets that can be used to finance day-to-day operations without constraints established by debt covenants or legal requirements – decreased by \$4.9 million, or 5.5 percent, during that same time. In comparison, last year total net assets increased by \$65.5 million, or 7.3 percent. The analysis in Table 1 (below) focuses on the net assets of the Airport and of the Port's Marine & Other activities separately.

| | | | | | | | | | | | | | |

^{*} Receivables and payables between activities are eliminated in the Total Port column.

Total net assets of the Airport increased by \$79.5 million, or 13.9 percent, as a result of net income and capital grants. Net assets invested in capital assets, net of related debt, increased \$164.9 million, or 43.8 percent, as a result of increases in capital additions and construction spending. Restricted net assets

decreased by \$87.9 million, or 49.7 percent, primarily due to construction spending. Unrestricted net assets increased by \$2.5 million, or 12.1 percent, primarily as a result of net income.

Total net assets of Marine & Other decreased from the 2009 balance by \$2.7 million, or 0.7 percent, primarily the result of a net loss. Net assets invested in capital assets, net of related debt, increased \$6.2 million, or 2.0 percent, as a result of increases in capital additions and construction spending. Restricted net assets decreased \$1.5 million, or 15.5 percent, as a result of spending state grant funds restricted for channel deepening use. Unrestricted net assets decreased \$7.4 million or 10.7 percent, primarily due to the net loss for the year in Marine & Other and capital spending.

Several factors caused changes in net assets (Table 2, below) to increase \$11.3 million from the prior year.

Airport changes in net assets increased \$28.8 million, primarily as a result of increased capital grants versus the prior year. Marine & Other changes in net assets decreased \$17.5 million due to decreased operating income and transfers from the Airport to pay for general aviation capital spending offset by increased capital grants.

Total revenues and extraordinary items for the Port decreased by approximately \$47.3 million from the prior year. Total expenses decreased approximately \$22.7 million from the prior year amount.

At the Airport, operating revenues decreased about \$3.4 million from the prior year due primarily to a decrease in airline revenues and revenues from rental cars. The decrease of about \$4.6 million in operating expenses was primarily attributable to lower salary, outside services, and material and supply expenses as a result of cost-cutting measures undertaken in response to the economic recession. The increase of \$1.9 million in nonoperating expense was due to decreased capitalized interest resulting from decreased capital construction at the Airport and decreased spending on nonoperating projects. Nonoperating revenues at the

Airport decreased \$8.3 million from the prior year primarily as the result of lower cash balances and lower interest earnings. Capital contributions increased \$26.7 million as a result of incurring more grant-eligible costs in 2010.

For Marine & Other, operating revenues decreased \$25.2 million over the prior year, largely the result of no land sales in 2010 versus 2009, as well as lower container revenues. During the same time, operating expenses decreased \$30.3 million versus 2009 due to no cost of land sold expense in 2010, as well as decreased environmental expense accruals in 2010 when compared to 2009. Nonoperating expenses increased \$10.3 million over the prior year, primarily due to the nonoperating loss on the sale of the Mulino Airport and a \$3.5 million service retention payment to Delta Airlines. Nonoperating revenues, decreased \$3.4 million largely as a result of decreased interest revenue resulting from lower interest rates.

Budgetary Highlights:

The Port's budget for fiscal 2010 was adopted by the Port Commission and certified by the Multnomah County Tax Supervising and Conservation Commission (TSCC) in June 2009. The adopted budget was revised during the year to provide resources to cover an airline retention agreement and letter of credit fees for the Passenger Facility Charge variable rate bonds. Appropriations in the budget were adjusted upward during the year to reflect higher Navigation operating expenditures resulting from additional dredging activity; costs related to environmental expenditures in the Portland Harbor Superfund site; increased Engineering costs related to the Port's large capital program, and increased costs related to the transfer of ownership of the Mulino airport. While legally a local government subject to governmental budgeting requirements, the Port operates much like a business, with expenditure levels driven by business needs. Revisions to reflect expenditure patterns are, therefore, common for an entity like the Port. As explained in Note 1 to the financial statements, Oregon budget laws differ, in certain situations, from accounting principles generally accepted in the United States of America.

On a budgetary basis, Airport capital expenditures were \$179.0 million, 8.9 percent below the \$196.5 million budget as the largest capital expansion program ever undertaken at the Airport continued. Operating expenditures tracked well against the budget, coming in 2.2% below the \$72.3 million budget amount. Airport operating revenues were \$167.6 million, 2.8 percent below the \$172.4 million budget, primarily as a result of reduced airline and rental car revenues. Capital grants during the year were \$56.4 million, slightly below the budget of \$58.2 million.

Fiscal 2010 budgetary capital expenditures for Marine & Other were \$28.3 million, 33.5 percent below the budget of \$42.6 million, as a result of deferrals of nonessential projects; capital grants for the year were \$15.7 million, significantly below the budget of \$32.0 million. Budgetary operating revenues were \$3.2 million under budget in marine and industrial development, primarily due to a budgeted land sale that was delayed. Budgetary operating revenues for navigation were \$1.4 million below budget as a result of lower than anticipated dredging activity during the year. Budgetary operating expenditures were below budget by approximately \$3.5 million for administration, primarily as a result of salary and outside service cost reductions undertaken in response to the economic downturn. Budgetary operating expenditures for marine and industrial development were below budget approximately \$5.8 million due to no cost of land sold as a result of the delayed land sale, as well as lower salary and outside services expenditures as a result of cost cutting measures. Budgetary operating expenditures for other environmental were under budget by approximately \$2.1 million as a result of delays in expected costs associated with environmental liabilities. Other significant budgetary revenue variances include the receipt of proceeds from loans for \$10.8 million which was not budgeted.

Capital Assets:

At the end of fiscal 2010, the Port had over \$1.4 billion invested in a broad range of capital assets. This amount represents a net increase (essentially additions offset by depreciation expense) of nearly \$148 million versus last year, as outlined in Table 3 (below).

Table 3

| | | | | | | | | |

This year's major capital asset spending included:

Airport:

Parking structure and headquarters building - \$81.5 million In-line baggage screening improvements - \$40.2 million North runway extension - \$24.3 million Deicing system improvements - \$22.8 million Pavement management program - \$8.9 million Flight information paging system - \$2.3 million

Marine & Other:

Ramsey rail improvement - \$9.0 million Hillsboro airport runway improvements - \$4.7 million Terminal 4 pipeline infrastructure - \$2.9 million Troutdale airport taxiway B improvements - \$1.6 million Navigation ramp barge - \$1.5 million HQ network infrastructure - \$1.2 million

Please see Note 5 to the financial statements for more detailed information of capital asset activity.

The Port's 2011 capital budget estimates spending another \$139 million on capital projects at the Airport and \$37 million in Marine & Other. Spending at the Airport is primarily slated for baggage screening system improvements, deicing enhancements, extension of the north runway and taxiway, rehabilitation of the south runway and taxiway, and other improvements. These projects are budgeted to be funded by Airport operating revenues, federal grants, bond proceeds, and PFC revenues. Capital spending for Marine & Other is budgeted principally for rail and infrastructure improvements at marine terminal and South Rivergate industrial park facilities and general aviation runway and taxiway improvements. Funding for these projects is budgeted from operating revenues, property taxes, and federal, state, and other grants.

Long-Term Debt:

At the end of 2010, the Port had approximately \$710 million in bonds, contracts and loans payable outstanding. This is an increase from the prior year, as seen in Table 4 (below).

Table 4
Outstanding Long-Term Debt
(\$ millions)

| | | | | | | | | | | | | Total |

| PFC revenue bonds | | 109.5 | | 114.0 | | | | | | 109.5 | 114.0 | (3.9)% |
| Contracts and loans payable | _ | | _ | | _ | 18.5 | | 8.1 | _ | 18.5 | 8.1 | 128.4% |
| | \$ | 613.9 | \$ | 639.2 | \$ | 95.9 | \$ | 85.8 | \$ | 709.8 | \$ 725.0 | (2.1)% |
| | _ | | | | | | | | | | | |

The outstanding amount of Airport revenue bonds decreased by \$20.8 million due to scheduled bond payments. As of the end of fiscal 2010, the Airport revenue bonds were rated AA- by Standard & Poors, which is among the highest underlying ratings for airport revenue bonds rated by that rating agency. The balance of PFC revenue bonds decreased by \$4.5 million as a result of regularly scheduled bond payments.

In fiscal 2007 the Port entered into pay-fixed, receive variable interest rate swaps as a synthetic fixed-rate refunding of the Port's PFC Series 1999A bonds. The Port received an up-front payment of \$5,453,000, which represented the risk-adjusted, present value savings of a refunding as of July 1, 2009 without issuing refunding bonds in fiscal 2007. The up-front payment was based on a notional amount of \$57,985,000 of PFC Series 2009 refunding bonds and was recorded as a swap borrowing on the Port's balance sheet in accordance with GASB Statement 53. The PFC Series 2009A bonds were issued in fiscal 2009 and used to defease the outstanding PFC Series 1999A bonds. The swaps commenced on July 1, 2009 – the first date the PFC Series 1999A bonds were subject to optional redemption at the option of the Port. Under the swaps, the Port pays counterparties fixed payments of 4.955 percent and 4.975 percent and receives a variable payment computed as 68 percent of the 1 month London Interbank Offered Rate (LIBOR). The actual savings ultimately realized by the swap will be affected by the relationship between the interest rate terms of the PFC Series 2009A refunding bonds versus the variable payment on the swaps.

In Marine & Other, the amount of outstanding long-term debt increased primarily due to issuance of \$10.7 million in loans payable offset by scheduled payments made on other pension bonds and contracts payable and by Series 2002A pension bonds deferred interest accrued but not paid until maturity.

Please see Note 7 to the financial statements for more detailed information of long-term debt activity and the Port's implementation of GASB Statement 53.

Economic Factors and Next Year's Budgets and Rates:

As part of the Port's strategic planning and business planning process, regional, national, and global economic trends and forecasts are reviewed and assumptions regarding passenger, cargo, and population growth are coupled with these trends and forecasts to produce the annual budget. The global economic recovery is slow with business lines expected to show gradual improvement in fiscal 2011. Airline passenger volumes are budgeted to stabilize in fiscal 2011. Container volumes are also budgeted to stabilize in fiscal 2011.

In the Port's 2011 adopted budget, total Port operating revenue is budgeted to increase about 6% to approximately \$245 million as a result of a slow recovery from the global economic recession to our business lines. Total operating expenses are budgeted to increase by about 11% to approximately \$167 million, reflecting the stabilization of costs and the elimination of the furlough program in fiscal 2011.

Operating revenues for the Airport are budgeted to increase to \$174 million in the fiscal 2011 budget, due to higher airline revenues and a slight increase in passenger volumes. Airport operating expenses

(excluding depreciation) are budgeted about 8.2 percent to \$92.3 million as a result of elimination of salary cuts and furloughs, as well as increased airline services.

In Marine & Other, operating revenues are budgeted to increase by 8.7 percent to \$71.2 million, primarily due to increased land sales. Operating expenses (excluding depreciation) are budgeted to increase by 14.2 percent, due to the elimination of salary cuts and furloughs as well as an increase in cost of property sold. Property taxes are budgeted to comprise approximately 1 percent of resources on a legal budget basis.

Contacting the Port's Financial Management:

This financial report is designed to provide users with a general overview of the Port's finances. If you have questions about this report or need additional financial information, contact the Port of Portland's Controller's Office, PO Box 3529, Portland, OR 97208.

The accompanying notes are an integral part of these financial statements.

THE PORT OF PORTLAND NOTES TO FINANCIAL STATEMENTS

1. <u>Description of the Port and Summary of Significant Accounting Policies</u>:

The Port

The Port of Portland (the Port) is a special municipal district created by the Oregon State Legislature. It facilitates aviation and marine trade within the Port District (Multnomah, Clackamas, and Washington Counties), and its influence spreads over a multi-state region. The Port owns and operates Portland International Airport (the Airport), which provides the metropolitan area with commercial airline passenger service, air cargo services, and general aviation service. The Port also owns two general aviation airports, four marine terminals, a dredge, seven industrial and business parks, and develops land principally to support, enhance, and expand its core transportation operations. Principal funding sources are charges to users, revenue bonds, grants, interest earnings, passenger facility charges, and, to a lesser extent, property tax levies. Its activities are carried out by a staff of approximately 745 full-time equivalent persons.

Basis of Accounting

The accounting and reporting policies of the Port conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to proprietary funds of local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Accordingly, the Port utilizes the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred.

Under the provisions of GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting," the Port has elected not to apply Financial Accounting Standards Board guidance issued subsequent to November 30, 1989.

Effective July 1, 2010, the Port has adopted GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets." The adoption of this statement did not have a material effect on the Port's financial statements.

Effective July 1, 2009, the Port adopted GASB Statement No. 53 (GASB 53), "Accounting and Financial Reporting for Derivative Instruments," as discussed in Note 7. This statement requires the Port to record its derivative instruments at fair value, and to report changes in fair value for effective hedging derivatives as deferrals on the balance sheet. As the impact on net assets was not material, the cumulative effect of applying this Statement was recorded in the current period and neither comparative totals for the year ended June 30, 2009 nor the fiscal 2010 beginning net asset balance have been restated. The effect on the Airport's financial statements for the year ended June 30, 2010 from the adoption of GASB 53 was to increase noncurrent liabilities by \$29.495 million, increase noncurrent assets by \$29.454 million, and decrease interest expense and net assets by \$0.041 million.

Intra-Port Charges and Expense Allocations

Labor and associated costs for services performed by one functional area of the Port to another area, most commonly by administrative departments, are charged in the accounting records as an expense to the receiver of services and as a credit to expense to the provider of services. The amount charged includes labor, fringe benefits, and an allocated portion of other costs, including materials and supplies, utilities, contract services, insurance, rent and depreciation. All other administrative department costs not charged in this manner are allocated as overhead based on a formula involving full time equivalent positions, information technology users, purchase order lines, acreage, operating revenues, and operating expenses.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

1. Description of the Port and Summary of Significant Accounting Policies, continued:

Operating Revenues and Expenses

Revenues and expenses that are earned or incurred during the course of normal business operations are classified as operating. Revenues and expenses that are earned or incurred outside of the course of normal operations, including interest income and expense, property tax revenue, and passenger facility charges, are classified as nonoperating.

Restricted Assets and Related Liabilities

Assets and related liabilities restricted to specific purposes by state statute, bond indenture or otherwise are segregated on the balance sheet. These assets and liabilities are primarily restricted for construction and debt service purposes. At June 30, 2010, all restricted assets are available to pay restricted liabilities due within one year except for approximately \$64,300,000 and approximately \$56,300,000 equity in pooled investments for the Port and Airport activity, respectively.

Land Held for Sale

Land held for sale includes costs of land acquisition and development on property held for eventual sale. Land held for sale is stated at the lower of average cost or net realizable value. Costs that are capitalized consist of acquisition and development costs incurred to bring the land to salable condition, including interest. At closing, sales and related cost of land are recorded as operating revenues and expenses.

Properties and Depreciation

Properties, other than lease improvements acquired upon termination of operating leases, are stated at cost less accumulated depreciation, including capitalized interest. Interest income earned on investments from tax-exempt debt is offset against capitalized interest expense. Properties with an individual purchase cost exceeding \$5,000 with a useful life exceeding one year are capitalized, and properties subject to depreciation are depreciated over their estimated useful lives on the straight-line basis. The useful lives generally range from 15 to 40 years for land improvements, 20 to 30 years for buildings and terminals, and 3 to 15 years for equipment. Normal maintenance and repairs are charged to operating expense as incurred; expenditures for major additions, improvements, infrastructure, and replacements are capitalized. The cost of assets retired or otherwise disposed of and the related accumulated depreciation are eliminated from the accounts in the year of disposal with the resulting gain or loss credited or charged to nonoperating revenue or expense.

Amortization of Bond Issue Costs

Deferred bond issue costs are amortized using the interest method over the life of the related debt. The difference between the reacquisition price and the net carrying amount of old debt arising from defeasance transactions is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter. Amortization is included in interest expense.

Accrued Vacation and Sick Leave Pay

Vacation and sick leave pay are accrued as earned for most employees, based on length of past service, up to a maximum number of hours per employee. Vacation and sick leave liabilities are reduced when leave is taken, and unused portions are paid off upon termination to the extent allowed for in Port policy.

Deferred Revenue

Deferred revenue typically represents prepaid lease financing related to real property development projects and transactions and is generally amortized over the life of the related lease. Lease terms generally range from 55 to 99 years.

Accounting for Contributions from Federal Government and Other

Capital grants and other contributions from governmental agencies are recorded as net assets when earned. Operating grants are recorded as revenue when earned. Lease improvements acquired upon termination of leases are included in properties and credited to net assets at estimated fair value at date of acquisition.

1. Description of the Port and Summary of Significant Accounting Policies, continued:

Property Taxes

Property taxes are used for capital purposes. Property taxes are recorded as nonoperating revenue in the year levied. Property taxes are levied and attached as an enforceable lien on property as of July 1. Taxes are payable in three installments on November 15, February 15, and May 15.

Cash and Cash Equivalents

Highly liquid investments (excluding restricted investments) with a maturity of three months or less when purchased are considered cash equivalents.

Environmental Remediation Liabilities

The Port records future pollution remediation costs that meet measurement criteria outlined in GASB Statement No. 49, "Accounting and Financial Reporting for Pollution Remediation Obligations." Those criteria require accrual of pollution remediation obligation amounts when a) one of certain obligating events occurs, and b) the amount can be reasonably estimated. Obligating events include imminent endangerment to public health or welfare or the environment; violation of a pollution prevention-related permit or license; evidence that the Port will be named as a responsible party, or potentially responsible party, for sharing costs; evidence that the Port will be named in a lawsuit to compel participation in remediation; and the Port commencing or legally obligating itself to commence pollution remediation. Costs for pollution remediation obligations are expensed unless expenditures meet specific criteria which allow them to be capitalized. Capitalization criteria include preparation of an asset for sale; preparation of property for use when the property was acquired with known or suspected pollution that was expected to be remediated; performing pollution remediation that restores a pollution-caused decline in service utility that was recognized as an asset impairment; and acquisition of property, plant and equipment that have a future alternative use.

Passenger Facility Charges

Passenger facility charges (PFCs) are imposed on enplaned passengers at the Airport. PFC revenue is recorded as nonoperating revenue and is required to be used to fund Federal Aviation Administration approved expenditures for capital projects or debt repayments eligible under federal legislation permitting the imposition of PFCs.

Cash and Investments

The Port pools the majority of its cash and investments and uses a controlled disbursement system in order to maximize earnings on available funds. As a result, book cash overdrafts (essentially comprising outstanding checks) may occur. Such overdrafts are presented as current liabilities. Investments with a remaining life of one year or less at the time of purchase are stated at amortized cost. Investments with longer maturities are stated at fair value based upon quoted market prices. For investments stated at amortized cost, there is no material difference from fair value at June 30, 2010 and 2009. Oregon Revised Statutes, Chapter 294 or Port ordinances, if more restrictive, authorize the Port to invest in obligations of the U.S. Treasury and U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by an Oregon financial institution, repurchase agreements, and certain corporate indebtedness. In addition, the Marine & Other activity is authorized to invest in a State of Oregon local government investment pool and various interest bearing bonds of Oregon municipalities.

Budgets

The Port budgets all funds in accordance with the requirements of State of Oregon (State) law. The Port Commission authorizes appropriations for each fund, setting the level by which expenditures cannot legally exceed appropriations. Total expenditures by department in the General Fund, operating expenditures in the Airport Revenue Fund, and capital outlay and debt service in the other funds are the levels of control for each fund. The detail budget document, however, is required to contain more specific, detailed information for the above mentioned expenditure categories. Appropriations lapse at the end of each fiscal year.

1. Description of the Port and Summary of Significant Accounting Policies, continued:

With the approval of the Port Commission, unexpected additional resources may be appropriated through the use of a supplemental budget. The original and supplemental budgets require budget hearings before the public, publications in newspapers, and approval by the Commission for submittal to the Multnomah County Tax Supervising and Conservation Commission (TSCC). The TSCC conducts a review and certification of the original and certain supplemental budgets as to compliance with State law. After TSCC certification, such budgets are presented to the Port Commission for adoption. Original and supplemental budgets may be modified during the fiscal year by the use of appropriations transfers between the legal categories. Such transfers require approval by the Port Commission. The Port adopted one supplemental budget for each of the years ended June 30, 2010 and 2009, respectively.

The Port budgets all funds on the accrual basis of accounting. For budgetary reporting purposes, State law requires that charges for services provided and certain expense allocations, from one fund to another fund, be reported as transfers to other funds, rather than as operating or capital expenditures.

Transfers Between Activities

The Port's policy is to fund certain general aviation (Marine & Other activity) capital requirements from the Airport activity. Amounts funded in this manner are reported as transfers on the statement of revenues, expenses, and changes in net assets.

Internal Receivables and Payables

Intra-Port receivables and payables between activities are eliminated in the total column of the balance sheet.

Prior Year Comparative Information

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Port's report on audit of financial statements for the year ended June 30, 2009, from which the summarized information was derived.

New Accounting Pronouncements

In March 2009, the GASB issued Statement No. 55, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments," effective immediately upon its issuance. The statement incorporates the hierarchy of generally accepted accounting principles for state and local governments into the GASB's authoritative literature. The adoption of this statement did not have a material effect on the Port's financial statements.

In March 2009, the GASB issued Statement No. 56, "Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards," effective immediately upon its issuance. The statement incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance presented in the American Institute of Certified Public Accountants' (AICPA) Statements on Auditing Standards. The adoption of this statement did not have a material effect on the Port's financial statements.

In June 2010, the GASB issued Statement No. 59, "Financial Instruments Omnibus," effective for the Port's fiscal year beginning July 1, 2010. The statement modifies financial reporting and disclosure requirements of certain financial instruments and external investment pools. The Port is currently evaluating the effects this statement will have on its financial statements.

2. Identifiable Activity Information:

The Airport is an identifiable activity in and of itself, providing commercial airline passenger service, air cargo services, and general aviation services. The activities comprising Marine & Other are the Port's marine terminals, which load, unload, and transfer commodities to and from trucks, railcars, barges, and ships; property and development services, which is responsible for real estate development and related services; environmental, which includes costs and recoveries associated with environmental cleanup not directly attributable to specific Port facilities, or which pertain to facilities for which operations have been discontinued; navigation, which performs maintenance dredging for the Columbia River channel and maintains a river level reporting system; general aviation, which provides general aviation relief services; engineering, which provides drafting, environmental planning, permit coordination, and engineering support for the Port; and administrative departments (admin), which provide support and services to the Port's operating departments.

Balance sheet information for Marine & Other is not available at the identifiable activity level. Identifiable activity information available for Marine & Other for the year ended June 30, 2010 was as follows (in thousands):

| | | P | roperty & | | | | | | | | | |
|-------------------------|------------------|----|-----------------|----------------------|---------|------------|--------|----------|---------|---------|-----------|--------------|
| | Marine | De | evelopment | | | | | C | General | Eng | gineering | |
| | <u>Terminals</u> | | <u>Services</u> | <u>Environmental</u> | | Navigation | | Aviation | | & Admin | | <u>Total</u> |
| Operating revenues | \$ 45,110 | \$ | 3,695 | | | \$ | 13,312 | \$ | 3,162 | \$ | 251 | \$ 65,530 |
| Operating expenses | 47,773 | | 3,117 | \$ | 4,557 | | 11,239 | | 3,390 | | (4,362) | 65,714 |

| Capital contributions | 10,244 | | 1,231 | | | | | | 4,252 | | | 15,727 |
| Land held for sale and | | | | | | | | | | | | |
| properties: | | | | | | | | | | | | |
| Additions | 14,748 | | 4,603 | | | | 514 | | 6,643 | | 2,365 | 28,873 |
| Deletions | | | | | | | (9) | | (5,986) | | | (5,995) |

3. Cash and Investments:

At June 30, 2010, the Port had the following cash and investments and maturities for the Airport:

| | | I | | | | | | |
|------------------------|----|---------------|--------------|------------------|----|--------------|----|--------------|
| | | Less than 1 | <u>1 - 2</u> | <u>2 - 3</u> | | <u>3 - 5</u> | | <u>Value</u> |
| U.S. Agencies | \$ | 74,541,224 \$ | 25,487,723 | \$ 14,120,048 | \$ | 1,694,346 | \$ | 115,843,341 |
| Corporate indebtedness | | 4,840,709 | 7,400,937 | 8,490,188 | | - | | 20,731,834 |
| | \$ | 79,381,933 \$ | 32,888,660 | \$ 22,610,236 | \$ | 1,694,346 | | 136,575,175 |
| Cash and deposits with | _ | | | | _ | | i | |
| financial institutions | | | | | | | _ | 14,077,337 |
| | | | | | | | \$ | 150,652,512 |

3. Cash and Investments, continued:

Following are the cash and investments and maturities for Marine & Other at June 30, 2010:

| | _ | | Investment Maturities (in years) | | | | | | | |
|--|----|-------------|----------------------------------|--------------|----|--------------|----|--------------|----|--------------|
| | | Less than 1 | | <u>1 - 2</u> | | <u>2 - 3</u> | | <u>3 - 5</u> | | <u>Value</u> |
| U.S. Treasuries | \$ | 4,158,154 | | | | | | | \$ | 4,158,154 |
| U.S. Agencies | | 31,151,566 | \$ | 48,167,953 | \$ | 26,684,760 | \$ | 3,202,059 | | 109,206,338 |
| Corporate indebtedness | _ | 9,148,211 | _ | 13,986,656 | _ | 16,045,174 | _ | = | | 39,180,041 |
| | \$ | 44,457,931 | \$ | 62,154,609 | \$ | 42,729,934 | \$ | 3,202,059 | _ | 152,544,533 |
| State of Oregon local government investment pool | - | | | | | | - | | | 38,345,810 |
| Cash and deposits with | | | | | | | | | | 30,343,010 |
| financial institutions | | | | | | | | | | 434,164 |
| | | | | | | | | | \$ | 191,324,507 |

To address interest rate risk and limit its exposure to fair value losses arising from rising interest rates, the Port's investment policy places restrictions on the maturities of the Port's investment portfolio. Investment maturities are limited as follows:

| <u>Maturity</u> | Maximum Investment |
|-----------------------|--------------------|
| Two years and under | 55% of par value |
| Three years and under | 75% of par value |
| Five years and under | 100% of par value |

Oregon Revised Statutes (ORS) limit investments in corporate indebtedness to those rated P-1 or Aa or better by Moody's Investors Service or A-1 or AA or better by Standard and Poor's Corporation or equivalent rating by any nationally recognized statistical rating organization. Port investment policy on credit risk follows ORS requirements. At June 30, 2010, all corporate indebtedness in the Port's investment portfolio met or exceeded these ratings requirements.

A portion of the Port's investments are invested in an external investment pool, the Oregon Short-Term Fund (Fund). Numerous local governments in Oregon, as well as State agencies, participate in the Fund. The fair value of the Port's position in the pool is the same as the value of the pool shares. The Fund is not registered with the U.S. Securities and Exchange Commission as an investment company. The State's investment policies are governed by Oregon Revised Statutes and the Oregon Investment Council (Council). The State Treasurer is the investment officer for the Council. Investments in the Fund are further governed by portfolio guidelines issued by the Fund Board. While the Fund itself is not rated, the Fund's policies provide that the weighted average credit quality ratings for the Fund's holdings are a minimum of AA and Aa2 for Standard and Poor's and Moody's, respectively.

Deposits with financial institutions include bank demand deposits. The total bank balance as shown on the bank statements was \$1,437,974. Of these deposits, \$250,000 was covered by federal depository insurance and \$1,187,974 was covered by collateral pledged by the Port's qualified depositories. In accordance with ORS 295, the collateral pledged is held by the agent of the qualified depositories; is designated as subject to the Pledge Agreement between the agent, the qualified depositories, and the Oregon Office of the State Treasurer (OST); and is held for the benefit of the OST on behalf of the Port.

3. <u>Cash and Investments</u>, continued:

As required by federal law, the Port held investments (classified as restricted assets) with a par value of \$4,150,000 at June 30, 2010 and 2009, as collateral for certain accrued liabilities for workers' compensation (Note 10). Federal law requires these investments to be in only certain prescribed negotiable securities.

Certain investment earnings are paid to the Airport from the Port General Fund pooled investments when earned. At June 30, 2010 and 2009, approximately \$75,793,000 and \$87,085,000, respectively, of the Airport's investments represent a percentage allocation of the Port's total investments.

4. Receivables:

Port operations are concentrated within the aviation industry for the Airport and the marine shipping industry for Marine & Other. Principal customers in these industries are national airlines and international steamship lines/agents, respectively. Each of these principal customers is affected by changes in industry market and other economic conditions. The Port evaluates the financial capacity of prospective and current customers to determine their ability to pay amounts due on a timely basis. Various forms of collateral, including irrevocable standby letters of credit and pledges from other related industry customers under a joint agreement, are obtained from certain customers, mainly for the Airport, where these pledges encompass substantially all trade receivables. Accounts receivable are monitored on an ongoing basis, and allowances for doubtful accounts are established and maintained. Total trade receivables for the aviation industry were approximately \$9,100,000 at June 30, 2010 and \$6,300,000 at June 30, 2009. Total trade receivables for the marine shipping industry were approximately \$2,900,000 at June 30, 2010 and \$3,700,000 at June 30, 2009. Total grants receivables for the aviation industry were approximately \$5,200,000 at June 30, 2010 and \$26,200,000 at June 30, 2009. Total grant receivables for marine and other were approximately \$3,400,000 at June 30, 2010 and \$500,000 at June 30, 2009. Other significant receivables include interest on investments and a dredging contract.

5. Properties:

Properties activity for the year ended June 30, 2010 was as follows:

| Airport: | Beginning Balances | Additions | Disposals & Transfers | Completed Projects | Ending Balances |
|--|--|--|--|---|--|
| Capital assets being depreciated: Land improvements Buildings and equipment Total capital assets being depreciated Less accumulated depreciation: Land improvements Buildings and equipment | \$ 528,778,956 836,690,369 1,365,469,325 295,144,890 428,865,307 | \$ 22,312,700 33,021,395 | \$ (101,519) (1,332,937) (1,434,456) (101,519) (1,266,975) | \$ 30,899,361 251,250,674 282,150,035 | \$ 559,576,798 1,086,608,106 1,646,184,904 317,356,071 460,619,727 |

5. Properties, continued:

The ordinances authorizing the issuance of Airport revenue and PFC revenue bonds do not convey title to or mortgage the Airport or any part thereof; however, the Port covenants not to encumber or dispose of Airport properties other than as specifically permitted in the ordinances and in certain grant agreements.

The Port leases to others certain land, buildings, and equipment at various locations for terms ranging from 2 to 99 years. All leases are accounted for as operating leases. Costs of properties leased at June 30, 2010 included above are:

| | | <u>Airport</u> | <u>N</u> | Iarine & Other | • • | Total Port |
|--------------------------|----|----------------|----------|----------------|--------|---------------|
| Land and improvements | | | \$ | 20,705,194 | \$ | 20,705,194 |
| Building & equipment | \$ | 560,319,688 | | 39,124,830 | | 599,444,518 |
| | - | 560,319,688 | _ | 59,830,024 | | 620,149,712 |
| Accumulated depreciation | _ | (292,857,466) | | (23,615,581) | | (316,473,047) |
| | \$ | 267,462,222 | \$ | 36,214,443 | \$ | 303,676,665 |

Minimum future rentals receivable on noncancelable operating leases for the five succeeding fiscal years and thereafter are:

| | <u>Airport</u> | Marine & Other | | Total Port |
|------------|----------------|----------------|----|-------------|
| 2011 | \$ 29,104,000 | \$ 14,521,000 | \$ | 43,625,000 |
| 2012 | 11,677,000 | 13,735,000 | | 25,412,000 |
| 2013 | 9,805,000 | 12,939,000 | | 22,744,000 |
| 2014 | 8,428,000 | 11,960,000 | | 20,388,000 |
| 2015 | 7,707,000 | 11,398,000 | | 19,105,000 |
| Thereafter | 68,082,000 | 97,349,000 | _ | 165,431,000 |
| Total | \$ 134,803,000 | \$ 161,902,000 | \$ | 296,705,000 |

Contingent rental revenues are included in operating revenues, primarily for Airport terminal area space, and were as follows in 2010 and 2009:

| <u>Airport</u> | | M | Iarine & Other | Total Port | | |
|----------------|----|------------|----------------|------------|------------------|--|
| 2010 | \$ | 62,400,000 | \$ | 2,700,000 | \$ 65,100,000 | |
| 2009 | \$ | 59,400,000 | \$ | 3,500,000 | \$ 62,900,000 | |

Marine & Other leases certain equipment under capital leases; there are no capital leases at the Airport. The following is a summary of Marine & Other assets leased under capital leases at June 30:

| | | <u>2010</u> | | <u>2009</u> |
|--------------------------------|----|-------------|----|-------------|
| Equipment | \$ | 943,240 | \$ | 928,656 |
| Less: accumulated depreciation | _ | (443,249) | _ | (311,293) |
| | \$ | 499,991 | \$ | 617,363 |

5. **Properties**, continued:

Future minimum capital lease payments, together with the present value of the net minimum lease payments are as follows:

| 2011 | \$ 532,998 |
|---|-----------------|
| 2012 | 477,098 |
| 2013 | 465,848 |
| 2014 | 451,930 |
| 2015 | 451,930 |
| 2016-2020 | 1,883,040 |
| Total minimum lease payments | 4,262,844 |
| Less: amount representing interest | (1,054,986) |
| Present value of net minimum lease payments | \$ 3,207,858 |

The present value of net minimum lease payments is reflected on the balance sheet as current and noncurrent obligations of \$328,842 and \$2,879,016, respectively.

6. Other Noncurrent Assets:

Other noncurrent belongings consist of the following:

| 2010: | <u>Airport</u> | Marine & Other | <u>Total</u> |
|----------------|----------------|------------------|--------------|
| Other | \$ | \$ 782,958 | \$ 782,958 |
| 2009: Other | \$ | \$ 820,151 | \$ 820,151 |
| Other | Ψ | φ <u>620,131</u> | Φ 020,131 |

There are no Other Noncurrent Assets for the Airport for fiscal years 2009 and 2010.

| Long-term portion outstanding | \$ 79,074,988 | \$ | 9,149,703 | \$ | \$ | 88,224,691 |

In addition, at June 30, 2010 and 2009, the Port has accrued \$6,038,312 and \$5,454,496, respectively, within the Marine & Other activity, for interest payable in future years, which is included in long-term debt on the balance sheet.

CONTRACTS, LOANS AND PENSION BONDS

Contracts and loans are payable from revenues of the Port, including existing property tax levies.

Limited Tax Pension Bonds were issued to fund the Port's estimated unfunded actuarial accrued liability as of April 1, 2002 (Note 9). These bonds are backed by a pledge of the full faith and credit of the Port's Marine & Other activity, and debt service is payable from Marine & Other revenues, including existing property tax levies. Additional property taxes may not be levied for debt service on these bonds. Bonds maturing on June 1, 2025 are redeemable at the option of the Port on or after June 1, 2007 at par, in whole or in part, by lot, on any date up to June 1, 2025. Bonds maturing on June 1, 2028 are subject to mandatory redemption, at par, prior to maturity, in part, by lot, beginning June 1, 2020, and on each June 1 thereafter. Interest for certain of the 2002 Limited Tax Pension Bonds is payable only at maturity.

Limited Tax Pension Bonds were also issued to fund the Port's estimated unfunded actuarial accrued liability as of October 1, 2005 (Note 9). These bonds are backed by a pledge of the full faith and credit of the Port's Marine & Other activity, and debt service is payable from Marine & Other revenues, including existing property tax levies. Additional property taxes may not be levied for debt service on these bonds. These bonds are subject to optional redemption by the Port, in whole or in part, on any date, at a price equal to the greater of par or a discounted value, as defined. Bonds maturing on June 1, 2020 are subject to mandatory redemption, at par, prior to maturity, in part, beginning June 1, 2015, and on each June 1 thereafter. Bonds maturing on June 1, 2028 are subject to like mandatory redemption, beginning June 1, 2021, and on each June 1 thereafter.

PORTLAND INTERNATIONAL AIRPORT REVENUE BONDS

Port Ordinance No. 155, enacted November 10, 1971, and Ordinance No. 323, enacted October 9, 1985, both subsequently amended (Ordinances), authorize the issuance of Portland International Airport Revenue Bonds (Airport revenue bonds) to pay the costs of acquiring and constructing Airport and other Port improvements. Port Ordinance No. 323 further restricts sales of Airport revenue bonds except for the purpose of paying the costs of construction of additions, expansion, and improvements at the Airport and the costs of acquisition and construction of general aviation airports. Both Ordinances also allow for the issuance of refunding bonds. The revenue bonds are not in any manner or to any extent a general obligation, a lien on tax revenues of the Port, or a charge upon any revenues or property of the Port not specifically pledged thereto. The proceeds of all such revenue bonds issued to date have been deposited in funds (accounts) designated for, and have been used for, Airport purposes only.

These Ordinances require that Airport revenues and costs of operation and maintenance be accounted for in an Airport revenue fund. Any excess of revenues over costs other than depreciation is to be credited in the following order for uses specified in Ordinance No. 155:

7. <u>Long-Term Debt</u>, continued:

- General account for payment to an Airport revenue bond fund to provide for the punctual payment of bond interest and principal.
- General account for all other permitted uses.

Proceeds from sales of bonds not expended for allowable acquisitions or construction shall be used for repayment of bonds.

These Ordinances established debt service reserve accounts in an Airport revenue bond fund to accumulate the maximum debt service requirements, as defined in the Ordinances, for any future fiscal year for all outstanding bonds. Debt service reserve insurance may be substituted for any portion of the bond reserve requirement. For all outstanding Airport revenue bonds, the bond reserve requirement has been met.

Section 16(ii) of Ordinance No. 155 and Section 5e of Ordinance No. 323 further stipulate that defined net revenues in each fiscal year must equal at least 130 percent of defined debt service requirements. The Airport has complied with this provision of the Ordinances for the years ended June 30, 2010 and 2009.

On July 1, 2005, contracts with major airline customers became effective in which the airlines have provided financial guarantees sufficient to meet the net revenues requirement for airline supported activities, primarily airfield and terminal operations. Net revenues of other activities, primarily parking, air cargo, and a portion of rental car operations are neither guaranteed nor limited to specified levels by these contracts. The contracts also contain an annual revenue sharing provision through June 30, 2010 in which fees to signatory airlines are discounted \$6,000,000 annually. The annual discount is subject to certain reductions, contingent on the Port managing operating expenses to a defined target level. The fiscal 2010 and 2009 discount reductions were \$310,517 and \$439,159, respectively. New contracts providing financial guarantees sufficient to meet the net revenues requirement for airline supported activities become effective on July 1, 2010; the financial provisions of these new contracts are similar to those of the prior contracts.

In prior years, the Port defeased or advance refunded various bonds, including \$102,735,000 of Series Seven bonds, by placing the proceeds in an irrevocable trust with an escrow agent to provide for all future debt service on the bonds. As a result, the trust account assets and the liability for the defeased or advance refunded bonds are not included in the financial statements. At June 30, 2010, \$24,580,000 of Series Seven defeased debt was still outstanding.

In fiscal 2008, the Port issued Series Eighteen variable rate bonds, the proceeds of which were used to refund \$134,295,000 of Series Seventeen bonds, representing all of the outstanding portions maturing after July 1, 2008, and to cash fund \$3,972,960 in debt service reserve. The interest rate on the Series Eighteen bonds is generally reset weekly by remarketing agents, and cannot exceed 12%. Payments of principal and interest on the Series Eighteen bonds and the purchase price of Series Eighteen bonds that are subject to optional or mandatory purchase and not remarketed will be payable by draws on an irrevocable direct pay letter of credit. Series Eighteen bonds are redeemable at the option of the Port, at par, prior to maturity, in whole or in part, by lot, on any business day. In the event that Series Eighteen bonds are not remarketed and the irrevocable direct pay letter of credit is drawn upon, the draw will constitute a liquidity advance by the letter of credit bank. The Port must repay the liquidity advance over a term of five years at a variable interest rate based on the greater of the bank's prime rate or the federal funds rate plus 1 percent.

In fiscal 2009, the Port issued Series Nineteen bonds to pay, or to reimburse the Port for the payment of, costs of the construction, acquisition, equipment and installation of Port headquarters facilities and other improvements at the Portland International Airport, to capitalize a portion of the interest on the Series Nineteen bonds, and to pay costs of issuing the Series Nineteen bonds. The bonds have coupon rates ranging from 4.25 percent to 5.50 percent with maturities ranging from July 1, 2010 to July 1, 2038. Series Nineteen bonds maturing on or after July 1, 2019 are redeemable at the option of the Port on or after July 1, 2018 at 100 percent of the principal amount plus accrued interest. Series Nineteen bonds maturing on or after July 1, 2019 are also subject to mandatory redemption at par, prior to maturity, in part, by lot, beginning July 1, 2018, and on each July 1 thereafter.

7. Long-Term Debt, continued:

Series Twelve bonds maturing on or after July 1, 2010 are redeemable at the option of the Port at par. Series Twelve bonds maturing July 1, 2018 are subject to mandatory redemption, at par, prior to maturity, in part, by lot, beginning July 1, 2014, and on each July 1 thereafter. Series Twelve bonds maturing July 1, 2028 are subject to mandatory redemption, at par, prior to maturity, in part, by lot, beginning July 1, 2019, and on each July 1 thereafter.

Series Fifteen bonds maturing on or after July 1, 2012 are redeemable at the option of the Port on or after July 1, 2011 at 101 percent of the principal amount at such date and at decreasing rates thereafter. Series Fifteen bonds maturing July 1, 2023 are subject to mandatory redemption, at par, prior to maturity, in part, by lot, beginning July 1, 2019, and on each July 1 thereafter.

All Airport revenue bonds, both principal and interest, are payable solely from revenues derived from the operation and related services of the Airport.

PORTLAND INTERNATIONAL AIRPORT PASSENGER FACILITY CHARGE REVENUE BONDS

Port Ordinance No. 395-B, enacted June 10, 1999, authorized the issuance of Portland International Airport Passenger Facility Charge Revenue Bonds (PFC revenue bonds) to pay the costs of construction of certain Federal Aviation Administration approved PFC projects. The PFC revenue bonds are backed by a pledge and assignment of PFC revenues. The PFC revenue bonds are not in any manner or to any extent a general obligation, a lien on tax revenues of the Port, or a charge upon any other revenues or property of the Port not specifically pledged thereto. The proceeds of all PFC revenue bonds issued to date have been deposited in funds (accounts) designated for, and have been used for, prescribed purposes only.

Ordinance No. 395-B established a debt service reserve account in an amount equal to the maximum annual debt service. The reserve account was fully funded from PFC bond proceeds. Ordinance No. 395-B requires that PFC revenues be accounted for in a PFC fund and used for, in order of priority, payments into a PFC bond fund to provide for payment of

PFC bond interest and principal, payments into the reserve account, any required payments into an obligations account, any required payments into an obligations reserve account, and then to a PFC capital account. The capital account may be used to pay costs of construction, additions, improvements, repairs to, or extensions of approved PFC projects or be used for any other lawful Port purpose to the extent permitted by PFC regulations. Until so applied, amounts in the capital account are pledged to payment of and subject to a lien and charge in favor of registered owners of the PFC revenue bonds.

In connection with the PFC revenue bonds, the Port has also covenanted to comply with PFC laws and regulations, noise regulations, and to manage the PFC program so that remaining PFC authority (as defined in Ordinance No. 395-B) less contractual commitments, shall exceed 105 percent of defined unpaid debt service.

In fiscal 2009, the Port issued Series 2009A Passenger Facility Charge Variable Rate Refunding Bonds (PFC refunding bonds), the proceeds of which were deposited in an irrevocable trust with an escrow agent to refund \$56,445,000 of PFC Series 1999A bonds, representing all of the outstanding portions maturing after July 1, 2009. As a result, those bonds were considered defeased and the trust account assets and the liability for those bonds are not included in the financial statements. The defeased bonds were redeemed on July 1, 2009 at 101 percent of the principal amount. The PFC refunding bonds are a direct result of pay-fixed, receive variable interest rate swaps which commenced on July 1, 2009. The interest rate on the PFC refunding bonds is generally reset weekly by remarketing agents and cannot exceed 12 percent. Payments of principal and interest on the PFC refunding bonds that are subject to optional or mandatory purchase and not remarketed will be payable by draws on an irrevocable direct pay letter of credit. In the event that PFC refunding bonds are not remarketed and the irrevocable direct pay letter of credit is drawn upon, the draw will constitute a liquidity advance by the letter of credit bank. The Port must repay the liquidity advance over a term of three years at a variable interest rate based on the greater of the bank's prime rate plus 2 percent, the federal funds rate plus 3 percent, or 10 percent.

7. <u>Long-Term Debt</u>, continued:

PFC Series 1999 bonds maturing on or after July 1, 2010 are redeemable at the option of the Port on or after July 1, 2009 at 101 percent of the principal amount at such date and at decreasing rates thereafter. PFC Series 1999 bonds maturing July 1, 2018 are subject to mandatory redemption, at par, prior to maturity, in part, by lot, on July 1, 2017, and July 1, 2018.

PFC Series 2009A bonds are redeemable at the option of the Port, at par, prior to maturity, in whole or in part, by lot, on any business day.

The Port has reserved the right to use at any time any legally available funds to purchase for retirement any of the outstanding PFC Series 1999 bonds offered to the Port at any price deemed reasonable.

PFC revenue bonds, both principal and interest, are payable solely from PFC revenues.

DERIVATIVE INSTRUMENTS

At June 30, 2010, the Airport had the following hedging derivative instruments outstanding:

| <u>Item</u> | <u>Type</u> | <u>Objective</u> | Notional <u>Amount</u> | Effective <u>Date</u> | Maturity Date | <u>Terms</u> | Fair Value |
|-------------|------------------------------|--|---------------------------|--------------------------|---|---|-------------------|
| A | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2008 Series 18 bonds | \$ 6,195,000 | 7/1/2005 | 7/1/2025 | Pay 5.1292%, receive 68% 1 month LIBOR | \$ (861,000) |
| В | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2008 Series 18 bonds | \$ 6,195,000 | 7/1/2005 | 7/1/2025 | Pay 5.1339%, receive 68% 1 month LIBOR | \$ (861,000) |
| С | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2008 Series 18 bonds | \$58,537,500 | 7/1/2006 | 7/1/2026 | Pay 4.9356%, receive 68% 1 month LIBOR | \$ (9,167,000) |
| D | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2008 Series 18 bonds | \$58,537,500 | 7/1/2006 | 7/1/2026 | Pay 4.9403%, receive 68% 1 month LIBOR | \$ (9,167,000) |
| Е | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2009 PFC Series 2009A bonds | \$34,791,000 | 7/1/2009 | 7/1/2024 | Pay 4.975%, receive 68% 1 month LIBOR | \$ (5,687,000) |
| F | Pay-fixed interest rate swap | Hedge of changes in cash flows on the 2009 PFC Series 2009A bonds | \$23,194,000 | 7/1/2009 | 7/1/2024 | Pay 4.955%, receive 68% 1 month LIBOR | \$ (3,711,000) |

At the inception of each interest rate swap agreement, the fixed rate on each of the swaps was off-market such that the Airport received an up-front payment; for derivative instruments A, B, C, and D, collectively, the Airport received three equal up-front payments totaling \$9,293,538, and for derivative instruments E and F, the Airport received an up-front payment totaling \$5,453,000. As such, each swap is comprised of a derivative instrument, an at-market swap, and a companion borrowing instrument represented by the upfront payment. Accordingly, the fair value of the hedging derivatives was \$(29,454,000) at June 30, 2010 and is recorded on the Airport Balance Sheet as a non-current liability. The cumulative change in fair value of the at-market interest rate swap was recorded as a deferred outflow of \$(29,454,000), and the unamortized balance of the borrowing is recorded on the Balance Sheet as a noncurrent liability of \$12,496,122 at June 30, 2010.

7. Long-Term Debt, continued:

The fair values of the interest rate swaps are estimated using the zero-coupon method. The method calculated the future net settlement payments required by the swaps, assuming that the current forward rates implied by the yield curves correctly anticipate future spot interest rates. These payments are discounted using the spot rates implied by the current yield curves for the hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

Credit risk. The Airport has three separate counterparties for its interest rate swaps. To minimize its exposure to loss related to credit risk, it is the Port's policy to enter into interest rate swaps with counterparties which have demonstrated experience in these types of financial instruments and either 1) rated in one of the top three rating categories by at least two nationally recognized rating agencies, or 2) will collateralize in accordance with all statutory requirements. The credit rating for each of the counterparties is as follows:

<u>Derivative Instrument</u> <u>Counterparty Credit Rating</u>

Derivative A, C, and E

Derivative B and D

AAA / Aa1

Derivative F

A / A2

Interest rate swaps with positive fair values are exposed to credit risk; interest rate swaps with negative fair values are not exposed to credit risk. At June 30, 2010, none of the Airports interest rate swaps were exposed to credit risk.

Interest rate risk. The Airport is exposed to interest rate risk on its pay-fixed, receive 68% of 1 month LIBOR interest rate swaps. As 1 month LIBOR decreases, the Airport's net payment on the swaps increases.

Basis risk. The variable rate debt hedged by the Airport's interest rate swaps are variable-rate demand obligation (VRDO) bonds that are remarketed weekly. The Airport is exposed to basis risk on its pay-fixed interest rate swap derivative instruments that are hedging the VRDO bonds, because the variable-rate payments received by the Airport on these derivative instruments are based on a rate or index other than the interest rates the Airport pays on the VRDO bonds. At June 30, the weighted-average interest rate on the Airport's VRDO bonds is 0.2362 percent, while 68 percent of 1 month LIBOR is approximately 0.2369 percent.

Termination risk. The Airport or its counterparty may terminate an interest rate swap if the other party fails to perform under the terms of the contract. In addition, the swap may be terminated if the Airport or a swap counterparty's rating drops below BBB-/Baa3. At termination, the Airport may owe a termination payment if there is a realized loss based on the fair value of the terminated interest rate swap.

Derivative instruments A, B, C and D require the Airport to post collateral in the event that its Standard & Poors credit rating drops below A-. The collateral posted is to be in the form of cash or U.S. Treasury securities in the amount of the negative fair value of the interest rate swap. The Airport's credit rating is AA- at June 30, 2010; therefore, no collateral has been posted for these derivative instruments. Derivative instrument E requires the Airport to post collateral in the event that its Standard & Poors credit rating drops below A- or if the negative fair value of that derivative instrument exceeds \$15 million. The Airport's credit rating is AA- at June 30, 2010, and the negative fair value of derivative instrument E does not exceed \$15 million; therefore, no collateral has been posted for these derivative instruments. Derivative instrument F requires the Airport to post collateral in the event that its Standard & Poors credit rating drops below BBB- or if there is a negative fair value of that derivative instrument. Derivative instrument E has a negative fair value at June 30, 2010; therefore, the Airport has posted \$6,200,000 in collateral with the counterparty (included in restricted cash and equity in pooled investments on the Airport's balance sheet).

7. Long-Term Debt, continued:

As rates vary, variable rate bond interest payments and net swap payments will vary. Although not a prediction by the Port of future interest cost of the variable rate bonds or of the impact of interest rate swaps, following are debt service requirements of the Airport's hedged variable rate debt and related net swap payments, using rates as of June 30, 2010:

| | Bone | ds | | | | |
|-----------|-------------------|----|-----------|----------|-------------|-------------------|
| | | | _ | In | terest Rate | |
| | Principal | | Interest | <u>S</u> | waps, net | <u>Total</u> |
| 2011 | \$ 5,570,000 | \$ | 275,372 | \$ | 5,740,934 | \$ 11,586,306 |
| 2012 | 5,800,000 | | 262,902 | | 5,488,120 | 11,551,022 |
| 2013 | 5,820,000 | | 250,389 | | 5,228,434 | 11,298,823 |
| 2014 | 6,085,000 | | 237,306 | | 4,916,642 | 11,238,948 |
| 2015 | 7,970,000 | | 220,171 | | 4,517,620 | 12,707,791 |
| 2016-2020 | 47,175,000 | | 792,835 | | 16,070,902 | 64,038,737 |

| | \$ 57,985,000 | \$ | 1,879,070 | \$ | 30,050,509 | \$ 89,914,579 |

8. Industrial Revenue Bonds:

The Port facilitates the issuance of industrial revenue bonds by others to finance construction of industrial facilities within the Port district which it leases or sells on installment contracts to the industrial users. Such facilities and the related receipts from lease rentals and contract payments are pledged for payment of the bonds. The bonds are not a liability or contingent liability of the Port or a lien on any of its properties or revenues other than the industrial facilities for which they were issued. Accordingly, the bond liability and related receivables are not reflected in the Port's financial statements.

Following is a summary of industrial revenue bonds outstanding at June 30:

| 5,338,000 |
|-----------|
| 1,950,000 |
| 7,288,000 |
| |

9. Pension Plans and Deferred Compensation Plan:

Most employees, after six months of employment, are participants in the State of Oregon Public Employees Retirement System (PERS), a defined benefit pension plan which has both agent multiple-employer and cost-sharing multiple-employer segments, administered by PERS, to which employees and employers both contribute. Benefits generally vest after five years of service. Retirement is allowed at age 58 with unreduced benefits, but retirement is generally available after age 55 with reduced benefits. Retirement benefits are generally based on salary and length of service or retiree account balance, are calculated using a formula, and are payable in a lump sum or monthly using several payment options. PERS also provides death and disability benefits. These benefit provisions and other requirements are established by state statutes. PERS issues a publicly available financial report, which may be obtained by writing to PERS, PO Box 23700, Tigard, Oregon 97281-3700.

The rate of employee contributions (6 percent of annual covered salary) is established by state statute, and the rate of employer contributions to PERS is set periodically by PERS based on actuarial valuations. The Port's contribution rate was 6.65 percent of annual covered payroll for fiscal years 2009 and 2008. The Port also pays the required employee contribution. The Port, by electing to join the State and Local Government Rate Pool, effective January 1, 2002, is part of the cost-sharing multiple-employer segment of the pension plan. Limited tax pension bonds were issued to fund the Port's estimated unfunded actuarial accrued liability of \$54,068,039 as of April 1, 2002, and \$20,012,029 as of October 1, 2005. These amounts were recorded as pension assets on the Port balance sheet. Of these amounts, \$25,550,920 and \$11,244,225 were applicable to the Airport, and were recorded on the Airport balance sheet as both assets and liabilities (due to Marine & Other). The assets are being amortized using methods and assumptions used in actuarial valuations. The actuarial amortization increased the balance of Port pension assets by \$415,581, \$597,431, and \$737,440, for fiscal years 2010, 2009, and 2008, respectively, of which \$201,487, \$282,578, and \$342,707, were applicable to the Airport. The Airport liability is reduced proportionately as the Marine & Other activity makes principal payments on the pension bonds. Principal payments on the pension bonds were made in the amounts of \$894,182, \$780,399, and \$658,765, in fiscal 2010, 2009, and 2008, respectively, of which \$444,022, \$385,337, and \$323,388, were applicable to the Airport.

For fiscal years 2010, 2009, and 2008 the Port's annual PERS contributions were \$3,633,617, \$5,431,144, and \$5,255,495, respectively, which equaled the contractually required contributions. Actuarial determinations are not made solely as to Airport employees. Pension contributions of \$1,713,699, \$2,504,858, and \$2,401,813, for fiscal years 2010, 2009, and 2008, respectively, were applicable to the Airport.

The 2003 Oregon legislature adopted a number of amendments to the benefit structure of PERS, later modified by the Oregon Supreme Court. In addition to adopting amendments to the benefit structure of PERS, the 2003 legislature passed HB 2020, which established a successor pension plan to PERS, the Oregon Public Service Retirement Plan (OPSRP). All public employees hired on or after August 29, 2003, unless membership was previously established in PERS, become participants in OPSRP, generally after six months of employment. OPSRP is a hybrid pension plan with two components, the Pension Program (a defined benefit program) and the Individual Account Program (IAP) (a defined contribution program), and is administered by PERS, the agency. The Pension Program is funded by employer contributions. For general service members, normal retirement age is 65 or age 58 with 30 years of service, and for police and fire members, normal retirement age is 60 or age 53 with 25 years of service. Retirement benefits under the Pension Program are calculated using a formula based on final average salary, as defined, and years of service. The IAP is funded by a 6 percent employee contribution (which may be paid by the employer for the employee). The Port pays the employee contribution. Employee contributions are placed in an employee account, accounts are adjusted for earnings or losses, and are paid at retirement, either as a lump sum or in installments. Effective January 1, 2004, required 6 percent employee contributions for PERS members are paid to the member's IAP account rather than the member's PERS account, as required by the 2003 legislation.

The Port's employer contribution rate to OPSRP, determined by an actuary using past PERS data, was 5.81 percent of annual covered payroll for general service members and 8.52 percent for police and fire members for fiscal year 2010, and 7.31 percent of annual covered payroll for general service members and 10.58 percent for police and fire members for fiscal years 2009 and 2008. The Port's fiscal 2010, 2009, and 2008 OPSRP contributions were \$1,510,905, \$1,537,527, and \$1,381,623, respectively, which equaled the contractually required contributions. Actuarial determinations are not made solely as to Airport employees. OPSRP contributions of \$560,845, \$586,698, and \$528,486, for fiscal years 2010, 2009, and 2008, respectively, were applicable to the Airport.

THE PORT OF PORTLAND NOTES TO FINANCIAL STATEMENTS. Continued

9. Pension Plans and Deferred Compensation Plan, continued:

The Port offers all its employees with six full months of service a deferred compensation plan created in accordance with IRC Section 457. The plan permits eligible employees to defer a portion of their current salary until future years. The deferred compensation is not available to the employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property and rights of an employee trust, held for the exclusive benefit of participants and their beneficiaries, and are not subject to the claims of the Port's general creditors. The Port has little administrative involvement with the plan and does not perform the investing function. Therefore, the plan assets are not included on the balance sheet.

10. Postemployment Healthcare Benefits:

The Port administers a single-employer defined-benefit healthcare plan which provides certain qualifying employees retiring under PERS or OPSRP with Port-paid healthcare coverage for the qualifying retiree until age 65. This program is being phased out, and will not be offered to any employees not meeting eligibility requirements by December 31, 2011. The Port does not issue a publicly available report on the plan. Contributions to the plan are made on a pay-as-you-go basis

Under Oregon State law, employees retiring under PERS or OPSRP may continue their health insurance coverage through the Port until eligible for Medicare (usually age 65). Coverage may be elected for the retiring employee, their spouse, and for qualifying dependents. Premiums are paid by the retiree at the Port's pooled rate, which is the same rate paid for active employees. Retirees, on average, are expected to have higher health care costs than active employees, primarily due to the older average age of retirees. Since the same premium applies to both groups, the premiums paid for active employees by the Port are subsidizing the premiums for retirees. As a result, there is an 'implicit subsidy' paid by the Port; the implicit subsidy associated with retiree health care costs paid during the last year is also considered to be a contribution from the Port

The Port's other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of thirty years. The following table shows the components of the Port's annual OPEB cost for the year, the amount contributed to the plan, and changes in the Port's net OPEB obligation:

| | | Marine & |
|--|----------------|--------------|
| | <u>Airport</u> | <u>Other</u> |
| Annual required contribution | \$ 324,000 | \$ 309,000 |
| Interest on net OPEB obligation | 39,000 | 13,000 |
| Adjustment to annual required contribution | (56,000) | (19,000) |
| Annual OPEB cost (expense) | 307,000 | 303,000 |
| Contributions made | (281,000) | (408,000) |
| Increase (decrease) in net OPEB obligation | 26,000 | (105,000) |
| Net OPEB obligation - beginning of year | 966,000 | 324,000 |
| Net OPEB obligation - end of year | \$ 992,000 | \$ 219,000 |
| | | |

THE PORT OF PORTLAND NOTES TO FINANCIAL STATEMENTS, Continued

10. Postemployment Healthcare Benefits, continued:

The Port's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

| | Annual | Percentage of Annual | Net OPEB |
|-----------------|--------------|-----------------------|------------|
| | OPEB Cost | OPEB Cost Contributed | Obligation |
| Airport: | | | |
| 2010 | \$ 307,000 | 91.5% | \$ 992,000 |
| 2009 | \$ 1,028,000 | 60.1% | \$ 966,000 |
| 2008 | \$ 1,032,000 | 46.1% | \$ 556,000 |
| Marine & Other: | | | |
| 2010 | \$ 303,000 | 134.7% | \$ 219,000 |
| 2009 | \$ 840,000 | 82.0% | \$ 324,000 |
| 2008 | \$ 860,000 | 79.9% | \$ 173,000 |

A schedule of the funding progress of the plan appears below:

| | Actuarial | Entry Age Normal - | | | | UAAL as a |
|----------------|------------|--------------------|-------------|---------|---------|-----------------|
| Actuarial | Value of | Actuarial Accrued | Unfunded | Funded | Covered | percentage of |
| Valuation | Assets | Liability (UAL) | AAL (UAAL) | ratio | Payroll | covered payroll |
| Date | (a) | (b) | (b-a) | (a / b) | (c) | ((b-a)/c) |
| <u>Airport</u> | | | | | | |
| 7/1/2007 | \$0 | \$9,363,000 | \$9,363,000 | 0% | N/A | N/A |
| 7/1/2009 | \$0 | \$3,182,000 | \$3,182,000 | 0% | N/A | N/A |
| Marine & Oth | <u>ner</u> | | | | | |
| 7/1/2007 | \$0 | \$8,977,000 | \$8,977,000 | 0% | N/A | N/A |
| 7/1/2009 | \$0 | \$3,394,000 | \$3,394,000 | 0% | N/A | N/A |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits in force at the valuation date and the pattern of sharing benefit costs between the Port and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. In the July 1, 2007 and 2009 actuarial valuations, the entry age normal actuarial cost method was used.

The July 1, 2009 actuarial assumptions included a 4.0 percent investment rate of return, projected inflation at 4.0 percent, and an annual healthcare cost trend rate of 10.5 percent initially, reduced by decrements to an ultimate rate of 5 percent after eleven years. The July 1, 2007 actuarial assumptions included a 5.0 percent investment rate of return, projected inflation at 4.0 percent, and an annual healthcare cost trend rate of 12 percent initially, reduced by decrements to an ultimate rate of 5 percent after fourteen years. The Port's unfunded actuarial accrued liability is being amortized over 30 years as a flat dollar amount.

11. Risk Management:

The Port has a comprehensive risk management program which primarily utilizes commercial insurance, with certain self-insurance, to provide protection from losses involving property, liability, injuries to personnel and errors and omissions, with various deductibles and self-insured retentions.

THE PORT OF PORTLAND NOTES TO FINANCIAL STATEMENTS, Continued

11. Risk Management, continued

The Airport is a full participant in the Port's risk management program. The Airport's expenses related to this program are recorded when incurred, with cash being paid to the Port's General Fund for ease of administration.

The Port self-insures for certain workers' compensation losses for amounts up to \$1,000,000 per accident. For amounts in excess of self-insured limits, insurance in the amount of \$10,000,000 per loss is maintained. Claim expenses and liabilities are recorded when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

Liabilities include an estimate for claims that have been incurred but not reported. Claims liabilities are based on the estimated ultimate cost of settling the claims, using past experience adjusted for current trends through a case-by-case review of all claims. Effective May 8, 1993, certain workers' compensation losses incurred after such date are the responsibility of an independent marine terminal management company.

Changes in the reported liability for workers' compensation resulted from the following:

| | Fiscal Year E | nded June 30, |
|--|---------------|---------------|
| | <u>2010</u> | 2009 |
| Beginning liability | \$ 1,225,183 | \$ 1,157,554 |
| Current year claims and changes in estimates | 1,094,236 | 724,612 |
| Claim payments | (748,717) | (656,983) |
| Ending liability | \$ 1,570,702 | \$ 1,225,183 |

Approximately \$644,900 and \$518,900 of the liability was applicable to the Airport at June 30, 2010 and 2009, respectively.

12. Commitments and Contingencies:

At June 30, 2010, land acquisition and construction contract commitments aggregated approximately \$87,000,000 for the Airport, \$16,000,000 for Marine & Other, and \$103,000,000 in total.

The Port, in the regular course of business, is named as a defendant in lawsuits. Management of the Port does not believe that the ultimate resolution of these lawsuits and other contingencies which, for the most part, are normal to the Port's business, will have any material effect upon its financial statements.

The Port is subject to federal, state, and local environmental laws and regulations. Pursuant to these laws and regulations, the Port has identified a number of contaminated sites on Port properties that will require remedial investigation and action. Some properties owned or operated by the Port may have unacceptable levels of contaminants in soil, sediments, or groundwater. In some cases, the Port has been designated by Federal or State government as a potentially responsible party (PRP) for the investigation and cleanup of properties owned by the Port or where the Port may have contributed to site contamination.

In December 2000, the Environmental Protection Agency (EPA) listed the Portland Harbor, including uplands portions, on the National Priorities List of Superfund sites pursuant to the Comprehensive Environmental Response Compensation and Liability Act. The EPA and the Oregon Department of Environmental Quality (DEQ) have identified the Port and other (PRPs) as potentially liable for cleanup of the site. The Port and other PRPs have signed an Administrative Order on Consent (AOC) to perform remedial investigation and evaluation activities for the site. Uplands activities are being conducted under the supervision of the DEQ. The Port has accrued approximately \$8,600,000 for its estimated remaining share of the costs of these Portland Harbor investigative activities at June 30, 2010. Cleanup costs for the Portland Harbor are not yet estimable under GAAP, and the Port's ultimate share of cleanup costs is not known. Within the Portland Harbor, there are certain Port-owned, or formerly owned facilities that require remedial investigation and/or cleanup. The Port entered into a separate AOC with the EPA governing early action cleanup activities on one of these sites. The Port has accrued approximately \$22,700,000 in estimated remaining costs for this cleanup at June 30, 2010. At another site, the

THE PORT OF PORTLAND NOTES TO FINANCIAL STATEMENTS, Continued

12. Commitments and Contingencies, continued:

Port has accrued approximately \$22,100,000 in estimated remaining costs at June 30, 2010. Both these sites are accounted for within the Marine & Other activity.

The Port is pursuing recovery of a substantial portion of these environmental costs from a variety of third parties, including insurance companies. As part of its recovery strategy, beginning in fiscal 2003, the Port entered into insurance buyout agreements with various insurance companies. Proceeds from these buyouts totaled \$0 and \$7,000,000 in fiscal 2010 and 2009, respectively. These amounts are shown as extraordinary items on the statement of revenues, expenses, and changes in net assets.

Operating expense and the corresponding liability measured at current value using the expected cash flow method have been recognized for certain pollution remediation obligations that may not have been previously required to be recognized. Certain other environmental contingencies may have limited measurable transactions and events at initial recognition, but estimates will increase over time as more components become reasonably estimable. Liabilities will also be remeasured when new information indicates increases or decreases in estimated outlays.

Changes in estimated long-term environmental liabilities were as follows:

| | | | | 2010 | | | 2009 | | | | | |
|------------------------|----|-----------|----|---------------|----|-------------|------|-----------|----|---------------|----|------------|
| | | Airport | Ma | arine & Other | | Total | | Airport | Ma | arine & Other | | Total |
| Beginning liability | \$ | 1,175,000 | \$ | 54,540,900 | \$ | 55,715,900 | \$ | 100,000 | \$ | 47,478,900 | \$ | 47,578,900 |
| Accruals | | | | (1,135,900) | | (1,135,900) | | 1,075,000 | | 7,062,000 | | 8,137,000 |
| Reclassifications (to) | | | | | | | | | | | | |
| from current | _ | | | | _ | | _ | | _ | | _ | |
| Ending liability | \$ | 1,175,000 | \$ | 53,405,000 | \$ | 54,580,000 | \$ | 1,175,000 | \$ | 54,540,900 | \$ | 55,715,900 |

The Port leases from others, under operating leases, certain computer software, warehouse and office space, copiers, and submerged lands. These leases expire at varying times through fiscal 2016. Total rental expense (all minimum rentals) for operating leases approximated \$2,727,000 and \$2,816,000 for Marine & Other in 2010 and 2009, respectively, and \$41,000 and \$0 for the Airport in 2010 and 2009, respectively. Future minimum rental payments on noncancelable operating leases for the five succeeding fiscal years and five year increments thereafter are:

| | | | <u>Airport</u> |] | Mar | ine & Other | <u> Fotal Port</u> |
|-----------|-------|----|----------------|---|-----|-------------|------------------------|
| 2011 | | \$ | 234,000 | | \$ | 358,000 | \$ 592,000 |
| 2012 | | | 233,000 | | | 131,000 | 364,000 |
| 2013 | | | 233,000 | | | 131,000 | 364,000 |
| 2014 | | | 233,000 | | | 131,000 | 364,000 |
| 2015 | | | 193,000 | | | 131,000 | 324,000 |
| 2016-2020 | | _ | | | | 36,000 | 36,000 |
| | Total | \$ | 1,126,000 | | \$_ | 918,000 | \$ 2,044,000 |

13. Net Assets Deficit and Budget Overexpenditures:

The Port has a net assets deficit of \$98,089,189 in the Airport PFC Fund as of June 30, 2010. The deficit exists because bond proceeds are recorded in or reimbursed to construction funds and related long-term debt is recorded in this fund. In the Airport PFC Fund, the Port overexpended one budget appropriation for Other expenditures as a result of the implementation of GASB 53. This overexpenditure of (\$310,936) is the result of a balance sheet reclassification and does not represent a cash overexpenditure.

14. Subsequent Event:

Subsequent to June 30, 2010, the Airport priced Series Twenty Airport revenue bonds, with the intent to close the transaction in early November, 2010. The Series Twenty bonds are anticipated to fund approximately \$30 million in new construction at the Airport, to refund all of the outstanding Series Twelve Airport revenue bonds, and to fund issuance costs and a debt service reserve.

SUPPLEMENTARY INFORMATION

THE PORT OF PORTLAND ORGANIZATION AND INTERNAL FUND DIVISIONS

The Port of Portland is a municipal corporation created in its present form by the 1971 merger of The Port of Portland and the Commission of Public Docks. A nine-member commission establishes and maintains Port policy for a staff under the guidance of an executive director.

The original Port of Portland was created in 1891 by the Oregon Legislative Assembly with the objective of dredging and maintaining a channel between Portland and the Pacific Ocean. As its operations and responsibilities increased, the Port acquired its aviation and land development interests.

The City of Portland in 1910 created the Commission of Public Docks to promote and develop maritime commerce through Portland Harbor and, in 1970, the voters approved a merger of these two organizations. In 1973, the Port district was expanded to include all of Multnomah, Clackamas, and Washington Counties.

For financial reporting and operating purposes, management considers the activities of the Port to be that of a unitary enterprise operation. For budgetary and bond ordinance requirement purposes only, the primary divisions of the accounts of the Port consist of the following funds (accounts):

General Fund

Used to finance the general operations of the Port and, subject to restrictions of the local budget law, its assets may be transferred to another fund for any authorized purpose. Principal revenue sources are marine facilities operations, land sales and leases, and a property tax levy for Port improvements.

Bond Construction Fund

This fund finances the acquisition, construction, expansion, and improvement of new and existing structures and facilities. Resources are from transfers from the General Fund, grants, and interest on investments.

Airport Revenue Fund

This fund is to be held and administered by the Port as long as any Portland International Airport Revenue Bonds are outstanding. The monies deposited in this fund are not commingled with any other monies of the Port and are used and applied only in the manner as specified by Section 13, Ordinance No. 155 and Section 6, Ordinance No. 323. Airport operations are accounted for in this fund. Principal revenue sources are flight fees, rentals, parking, and concession income.

Airport Revenue Bond Fund

This fund is administered by a trustee appointed under Section 11, Ordinance No. 323. The monies in this fund are used solely for the payment of principal and interest due on Portland International Airport Revenue Bonds. Principal resources are revenue bond proceeds, interest, and transfers from the Airport Revenue Fund and the Airport Construction Fund.

Airport Construction Fund

The monies credited to this fund are used and applied solely to the payment of costs of additions, expansions, and improvements to the Airport in accordance with Section 12, Ordinance No. 155 and Section 8, Ordinance No. 323. Principal resources are interest, grants, and revenue bond proceeds.

PFC Fund

This fund is used to account for PFC revenue. Amounts credited to this fund are used to provide for debt service on Portland International Airport Passenger Facility Charge Revenue Bonds and to construct certain assets in accordance with Section 2, Ordinance No. 395-B. Principal resources are PFC revenue, bond proceeds, and interest.

PFC Bond Fund

This fund, created in accordance with Section 8, Ordinance No. 395-B, is administered by a trustee, for the payment of principal and interest on Portland International Airport Passenger Facility Charge Revenue Bonds. Principal resources are transfers from the PFC Fund, bond proceeds, and interest.

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

The Port of Portland Audit Comments and Disclosures Required by State Regulations June 30, 2010

Oregon Administrative Rules 162-10-050 through 162-10-320 incorporated in the *Minimum Standards for Audits of Oregon Municipal Corporations*, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments and disclosures required in audit reports. The required statements and schedules are set forth in the preceding sections of this report. Required comments and disclosures related to our audit of such statements and schedules are set forth in the following pages.

The Port of Portland Audit Comments and Disclosures June 30, 2010

October 28, 2010

To the Board of Commissioners of the Port of Portland

We have audited the financial statements of the Airport and Marine & Other activities of the Port of Portland (the "Port"), as of and for the year ended June 30, 2010, which collectively comprise the Port's basic financial statements and have issued our report thereon dated October 28, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Port's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be control deficiencies, significant deficiencies or material weaknesses. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We noted no matters involving the internal control over financial reporting and its operation that we consider to be control deficiencies, significant deficiencies or material weaknesses.

Accounting Records

We found the Port's accounting records to be adequate for audit purposes.

Adequacy of Collateral Securing Depository Balances

Oregon Revised Statutes ("ORS") Chapter 295 requires that each depository throughout the period of its possession of public fund deposits shall maintain on deposit with its custodians, at its own expense, securities having a value not less than 10%, 25%, or 110%, depending on the depository, of the greater of (a) all public funds held by the depository or (b) the average of the balances of public funds held by the depository, as shown on the last four immediately preceding treasurer reports. During the year ended June 30, 2010, we noted no instances where certificates maintained by depositories were not sufficient to secure the Port's bank deposits to the maximum extent possible under statute.

Investments

Our review of deposit and investment balances indicated that, during the year ended June 30, 2010, the Port was in compliance with ORS Chapter 294 as it pertains to investment of public funds.

Legal Requirements Relating to Debt

The general obligation bonded debt of the Port is in compliance with the limitation imposed by ORS Chapter 778. We noted no defaults in principal, interest, sinking fund, or redemption provisions with respect to any of this bonded debt.

The Port of Portland Audit Comments and Disclosures June 30, 2010

Budget Compliance

A description of the budgeting process is included in the notes to the basic financial statements.

The Port appears to have complied with Local Budget Law (ORS 294.305 to 294.520) in the preparation, adoption and execution of its budget and tax levy for the year ended June 30, 2010 and the preparation and adoption of its budget for the year ended June 30, 2010. In the Airport PFC Fund, the Port overexpended one budget appropriation for the year ended June 30, 2010. This overexpenditure of \$(310,936) is the result of a balance sheet reclassification and does not represent a cash overexpenditure.

Insurance Policies and Fidelity Bonds

We have reviewed the Port's insurance and fidelity bond coverage at June 30, 2010. We ascertained that such policies appeared to be in force and in compliance with legal requirements relating to insurance and fidelity bond coverage. We are not competent by training to comment on the adequacy of the insurance policies covering the Port-owned property at June 30, 2010.

Public Contracts

The Port's procedures for awarding public contracts were reviewed and found to be in accordance with ORS Chapter 279.

Programs Funded from Outside Sources

Our reports on compliance and internal control over financial reporting based on an audit of financial statements performed in accordance with *Government Auditing Standards*, and compliance with requirements applicable to each major program and internal control over compliance and other matters in accordance with OMB A-133 are contained in a separate report dated October 28, 2010.

Financial Reporting Requirements

We have reviewed financial reports and other data relating to programs funded wholly or partially by other governmental agencies. This data, filed with other governmental agencies, is in agreement with and supported by the accounting records.
