Hillsboro Airport Temporary Runway Closure October 10 - 11, 2016

Maintenance activities will require the temporary closure of Hillsboro Airport's primary runway (13R-31L), effective Monday October 10th and Tuesday October 11th between 11:00 AM and 3:00 PM.

During this time, aircraft will have to use the shorter, parallel runway which runs in a northwest-southeast direction and the crosswind runway which runs in a northeast-southwest direction. Both are depicted in green below. The runway to be closed is depicted in red. The closure will result in temporary changes in flight patterns and noise and changes in this schedule are subject to change due to weather or other factors.

We apologize for any disturbance and appreciate your understanding during these temporary conditions.
