Access: Berth 416 is located within Terminal 4. It is owned and operated by the Port of Portland. Berth 416 is a fenced facility with 24 hour security provided. The facility can be accessed via a private access road from the main entrance into Terminal 4, located along N. Lombard Street.

Summary: Berth 416 is a floating dock, built from the hull of a Liberty ship. The dock is 414 feet long by 56 feet wide. Elevation of the dock is 14 feet above the level of the river. There are mooring dolphins located approximately 200 feet upstream and downstream of the dock and separate breasting/mooring dolphins 35 feet upstream and downstream. The dock is accessed by two hinged ramped shore bridges, which are 20 feet wide by 125 feet long. Each ramp is single lane with a maximum H10 truck loading weight limit. The Port can provide negotiable short/long term rates at Berth 416 for lay berth vessels.
