3. **Damage to Port Property and the Environment**

A. Piling Damage Replacement

Vessels will be responsible for and charged for the replacement of any pilings damaged during their occupancy of a Port berth. B. Environmental Costs

Each Facility User will be responsible for all costs associated with response to, or abatement of any spills, releases, or discharges of pollution, invasive species, or hazardous materials into the air, land, groundwater or waterways in the vicinity of Port marine terminal facilities, and/or on Port property that emanate from or are caused by the Facility User's vessel, equipment, or operations. If a Facility User does not immediately commence corrective action, the Port may undertake corrective action, and the Facility User will reimburse the Port for all such costs within thirty (30) days of written demand by the Port. With respect to invasive species, recoverable environmental costs include without limitation costs associated with quarantine, fumigation, pesticide or herbicide application, and actions taken at the request of state or federal authorities with authority over invasive species control.

9. Billing in U.S. Measure

B. Environmental Laws

All Facility Users shall comply with all applicable environmental laws, rules, or regulations promulgated by federal, state, or local regulatory bodies and by the Port.

C. Other Laws

In addition to any laws, rules, or regulations specifically referenced in this tariff, all Facility Users shall comply with any other applicable laws, rules, or regulations promulgated by federal, state, or local regulatory bodies and by the Port.

11. United States Coast Guard Compliance

All ocean-going vessels using or scheduled to use a Port berth shall be in compliance with the United States Coast Guard (USCG) rules and regulations. At any time, while at berth, a vessel is determined by USCG to be in noncompliance or substandard, or if the cargo operation is interrupted or ordered-to-stop by the USCG authorities or Captain of the Port, the vessel/owner(s)/operator(s) shall be liable for all consequential delays, damages, and costs; and the Port shall have the right to order the vessel to vacate the berth if the cargo operation has not resumed within 1 hour from the time it stopped.

If at any time, prior to the vessel's berthing, it is determined by the USCG that the vessel is deficient, the vessel's agent/master/owner(s)/operator(s) shall immediately notify the Port indicating the nature of the deficiency so determined. Depending on the deficiency's potential impact on the cargo operation, the Port shall have the right to reject or void the vessel's Application for Berth Reservation until the deficiency is corrected, acceptable to the USCG.

12. The Maritime Fire and Safety Association

The Maritime Fire and Safety Association (Association) increases vessel safety and casualty response effectiveness through its comprehensive MFSA Vessel Response Plan that covers the Columbia River from its mouth (at river mile 0) extending three miles into the Pacific Ocean, up to the Glenn Jackson Bridge at I-205 (river mile 113) and the Willamette River from its confluence with the Columbia River up to Willamette Falls. The Association does this by entering into contracts with the participating local fire districts and other safety organizations

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)

PORTLAND, OREGON

along these river systems through which they 1) facilitate ongoing training and education of member fire agencies in the response to vessel emergencies and 2) allow for purchase (and reimbursement) of specialized marine firefighting equipment to combat marine fires. The Association levies a charge per oceangoing or deep-draft vessel for each initial arrival at a participating Association member's location within the Columbia River. The current fee schedule may be found on the Association's website here: www.mfsa.com. The Port merely collects the fee on behalf of the Association and it is not imposed for the furnishing of any marine terminal facilities and is not related to the receiving, handling, storing, or delivering of property.

13. Security Fees

In order to fulfill its responsibilities for security, including, but not limited to, responsibilities mandated under the Maritime Transportation Security Act of 2002 and the USCG Regulation 33CFR§105, the Port will assess against and collect from ocean-going vessels, their owners, or operators for the use of terminal working areas a Port Security Fee. Such fee, in the amounts set forth in the tariff, shall be in addition to all other fees and charges due under the tariff.

Security fees will be charged at marine terminal facilities for which the Port provides security. Vessels will be charged and assessed against the vessel on a per-dockage-day basis.

At the Port's sole discretion, charges may be assessed to cargo and/or vessels for additional security costs associated with an increase in MARSEC level mandated by the U.S. Department of Homeland Security.

14. Charges and Payment

A. Collection and Guaranty of Charges

(1) Wharfage, Loading and Unloading, and Miscellaneous Charges:

(a) Wharfage, loading and unloading, and miscellaneous charges shall be assessed to the owner of the cargo when they are not absorbed by the ocean or inland carriers.

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)
Effective: 03/01/16*

PORTLAND, OREGON

- (b) Charges for wharfage, loading and unloading, and other Port charges for services performed on cargo transshipped by ocean carriers shall be billed to and payment guaranteed by the vessel, its owners, or operators.

B. Service and Facilities Charges

The Port does not assess service and facilities charges at its marine terminal facilities. Fees for special services will be billed based on the services provided.

15. Terms of Payment

Use of Port marine terminal facilities or service is conditioned upon satisfactory assurance to the Port that all charges will be paid when due. Charges are due and payable as they accrue or on completion of service or use.

16. Requirements for Payment in Advance

The Port may require payment in advance for each of the following:

A. Berth Assignment

Before vessel is assigned a berth and commences its loading or unloading operations. These charges are billed to the vessel, its owners, or agents.

B. Cargo Custody and Control

Before cargo leaves the custody and control of the marine terminal facilities for inbound shipments and before outbound cargo is released from the custody and control of the terminal. These charges are billed to the cargo owner, shipper, or consignee.

C. Perishable, Doubtful Value, Household Goods

For all services provided on perishable cargo, cargo of doubtful value, and household goods.

D. Payment Terms are Cash

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

Effective: 03/01/16

PORTLAND, OREGON

Unless credit for its charges has been extended by the Port as provided in this Section 16.D, all Port invoices for its charges pursuant to this tariff or other agreement are due and payable in United States currency upon presentation to the vessel, her owners or agents. Port customers, prior to the use of marine terminal facilities or services, may receive extended payment terms, provided they have established credit worthiness or have posted adequate security acceptable to the Port. Conditions under which extended payment terms may be granted are outlined in the Supplement to Application for Vessel Berth Reservation.

If payment is not made by the person or persons, or entity or entities, to whom credit has been extended by the Port according to the terms of such credit extension, then such person or persons, entity or entities may be, following the failure to properly make payment, placed on a cash payment basis by the Port.

E. Delay and/or Failure to Pay

In the case of delay or failure to pay invoices when due, the Port reserves the right to demand payment of charges in advance before further services will be performed or before delivery of cargo against which charges have accrued. Any pending or alleged claims against the Port will not be allowed as an offset against outstanding invoices or accrued charges.

F. Delinquent Invoices

Invoices issued by the Port are due and payable no later than 30 days from invoice date. Invoices not paid by the due date shall bear a delinquency charge of 18% per annum or, if less, the maximum rate of interest allowed by law, from the date of delinquency until paid. The delinquency charge on the overdue amounts shall be subject to periodic change in the sole discretion of the Port. The Port's failure to impose a delinquency charge shall not be a waiver of the Port's other rights and remedies for such delinquent payment, nor of the Port's right to later charge and collect a charge for such delinquency. Acceptance of any delinquency charge by the Port shall in no event prevent the Port from exercising any of the other rights

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)

PORTLAND, OREGON

and remedies granted under this tariff or by law. Any and all services provided or performed pursuant to this Tariff shall give rise to a lien in favor of the Port against the vessel, container, chassis, cargo or any other tangible property whatsoever.

G. Collection Expenses

Any and all additional collection expenses, including, without limitation, attorney fees and costs necessary to effect collection, may also be assessed.

H. Remedies

The Port reserves all rights to pursue any and all remedies available under applicable law or in equity in the event of delinquencies or other noncompliance with this tariff.

17. Insurance and Indemnification

A. Insurance

Every party using Port marine terminal facilities shall obtain and maintain insurance in the type applicable to cover bodily injury and property damage arising out of their work at or upon the marine terminal facilities. The following is the minimum insurance coverage that must be secured:

(2) Commercial General Liability and/or Comprehensive Marine General Liability, Stevedore's Liability, Protection and Indemnity, Charterer's Legal Liability, Sudden and Accidental Pollution Liability, and any other insurance required by state and federal law, as applicable, with separate limits of \$5,000,000 each coverage, per occurrence. Such insurance shall be primary, and shall not seek contribution from any insurance or self-insurance carried by the Port. Failure of the Port to request the proof of insurance required herein, or to notice discrepancies in the evidence submitted, shall not excuse a party from the insurance requirements of this tariff.

18. Conditions of Berth Reservation

- A. In accordance with Federal Maritime Commission Docket 83-48, Alaska Maritime Agencies, Inc., et al. v. Port of Anacortes, et al., and Tariff Rule 16 in the Port of Portland Tariff No. 8, amendments and reissues thereto, all applications for vessel berth reservation shall be made in the form specified by the Port, and will require the timely filing of the financial responsibility information contained in the Application of Berth Reservation, completed in accordance with, and otherwise governed by, the terms and conditions set forth below:

Port's marine terminal facilities by the Facility User, whether or not due to the Facility User's own act or omission and whether or not occurring on the marine terminal facility; (c) any breach, violation, or nonperformance of the regulations, rules, and terms of this tariff; (d) any damage caused by the Facility User on or to the marine terminal facility or other Port property; or (e) any spill, release, or discharge of pollution, invasive species, or hazardous materials into the air, land, groundwater, surface water or sediments at or in the vicinity of any of the Port's marine terminal facilities that are associated with or relate to, or are caused by, the Facility User, including but not limited to the Facility User's vessels, vehicles, equipment, or operations. Each carrier shall indemnify the Port and Port Parties from and against, and reimburse the Port and Port Parties for, any liability, damage and claim (and all expenses connected therewith, including, without limitation, reasonable attorneys' fees and costs) arising out of loss or damage of cargo if such carrier fails to incorporate in its B/L, or through contract or otherwise fails to apply to the cargo, such rights, defenses, exemptions, and immunities and as a result the Port or any Port Parties are unable to take advantage of any such rights, defenses, exemptions, and immunities that would otherwise be available to the

No provision contained in this tariff shall limit or relieve the Port from liability for its own negligence nor require any person, vessel, or lessee to indemnify or hold harmless the Port or Port Parties from liability for the Port's own negligence.

23. Sovereign Immunity

To the extent any carrier calling the Port terminals has or hereafter may acquire any immunity from jurisdiction of any court or from any legal process, such carrier hereby waives such immunity and agrees not to assert, by way of motion, as a defense or otherwise, in any suit, action or proceeding, the defense or claim of sovereign immunity, any claim that it is not personally subject to the jurisdiction of the above named courts by reason of sovereign immunity or otherwise, that it is immune from any legal process (whether through service of notice, attachment or arrest prior to judgment, attachment in aid of execution, execution or otherwise) with respect to itself or its property, that the suit, action or proceeding is brought in an inconvenient forum, that the venue of the suit, action or proceeding is improper, or that this tariff may not be enforced in or by such courts. Each carrier waives immunity from attachment or arrest of its vessels and property.

SECTION II - DOCKAGE RULES

1. Dockage Definition

The charge assessed against the vessel for berthing at a wharf, pier, bulkhead structure, or bank or for mooring to a vessel so berthed.

2. Basis For Establishing the Vessel's Length

Dockage charges shall be based upon the vessel's length overall as published in "Lloyd's Register of Shipping." Length overall shall be construed to mean the linear distance, expressed in meters or feet, from the most forward point of the bow to the aftermost point on the stern of the vessel, measured parallel to the baseline of the vessel. If the length overall of the vessel does not appear in "Lloyd's Register of Ships," the Port may obtain the length overall from the "Vessel's Register," or measure the vessel.

3. Dockage Period

The Dockage period is calculated by the period of time upon which dockage will be assessed and shall commence when the first line is made fast to a wharf pier, seawall, slip, or other mooring facility or when a vessel is made fast to a vessel so berthed; or when a vessel comes within, or moors within, a slip; and shall continue until such vessel is completely free (last line free) from and has vacated such berth or slip. No deductions will be allowed for Saturdays, Sundays, holidays, or because of weather or other conditions. Dockage periods are calculated in 24-hour periods beginning with the first line. Idle time from different dockage periods may not be accumulated to constitute a lay period. The number of dockage periods billed, when lay status is involved, will not exceed the total number of dockage periods the vessel is on berth. When lay status is involved, the calculation of total dockage charges will be first based on the number of working periods and then lay periods, if any. For vessels charged dockage the data necessary to charge dockage (data sheet, statement of facts, or other) must be sent to the Port no later than 3 days after departure of the vessel. If this data is not received within the 3 days, a billing/rebilling fee will be assessed.

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)
Effective: 03/01/16*

4. Charge On Vessel Shifting

When a vessel is shifted directly from one wharf (berth) to another wharf (berth) operated by the Port, the total time at such berths will be considered together in computing the dockage charge.

5. Ocean-Going Barges

Ocean-going barges are considered within the definition of vessels.

6. Dockage Charge – Vessel on Lay Status

To qualify for 50% of the regular dockage rate, the vessel must be idle at its working berth waiting to discharge and/or load cargo. For vessels at a working berth which have operations interrupted for one or more consecutive 24-hour periods due to lack of cargo or labor availability, lay status may also be granted. The vessel must have attempted to and been willing to work these hours. Lay status requests at working berths should be received by the Port prior to vessel departure.

To qualify for 25% of the regular dockage rate the vessel must be idle at a non-working berth. A vessel may be permitted to moor at idle port marine terminal berths when such berths are available. Lay status for non-working berths must be submitted by agent to the Port, Operations General Manager, or their designee prior to vessel arrival on berth. If the request is not received prior to the vessel arrival on berth a billing/rebilling fee will be assessed. Upon approval, copy of request will be forwarded to Billing Department who will apply lay rates. If no approval is granted by the Port, the Billing Department will apply dockage at the full dockage rates.

Lay status MAY be granted when berths are available and at the discretion of the Port's Operations General Manager or their designee. Upon vessel's departure from berth, agent will submit Vessel Activity Report, Supercargo Report, Statement of Facts, or other official documentation describing activity of loading/discharge pertinent to vessel stay, to the Port's Billing Department to aid in application of lay status. Such vessels and unmanned barges shall be charged 50% or 25% of the applicable dockage charge.

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)
Effective: 03/01/16*

PORTLAND, OREGON

For vessels on lay status for 10 consecutive days and longer or vessels performing ship maintenance work upon written permission from the Port's Operations General Manager or their designee, prior to the idle period, a special lay status may be granted when berths are available.

7. Dockage Charge – Tug Boats on Lay Status

Lay status, which is defined as waiting for a berth to discharge and/or load cargo, take on provisions, or make repairs, may be permitted to moor at idle Port marine terminal berths when such berths are available. Lay status may be granted with a written request to the Port and written permission from the Port prior to the idle period. Lay status MAY be granted when berths are available and at the discretion of the terminal manager. Tug boats which are granted lay status will be charged per 24-hour period or fraction thereof. The first 12-hour period will be free, and then lay status charges will begin.

8. Berth Assignments

Berth Assignments will be issued at the sole discretion of the Port to the owners, agents, or operators of vessels for use of a specific berth by a specific vessel.

9. Vessels Required to Obtain Berth Assignments

No vessel will be permitted to berth at a wharf or marine terminal facility of the Port without a prior berth assignment being granted by the Port. Applications for berth assignments must be made as far in advance of the arrival of vessel as possible and must specify arrival and departure dates and the nature and quantity of the cargo to be loaded or discharged.

10. Vessels Required to Vacate Berths

The Port reserves the right to order a vessel to shift its position at a wharf, to change berths, or to vacate a berth when:

- A. Not actually engaged in loading or discharging cargo.
- B. When occupying a berth beyond the time limitation named in the assignment permit.
- C. When a vessel holding an agreement granting the preferential use

at that berth at that time presents itself at the berth.

Any vessel refusing or failing to shift, change berth, or vacate berth at request of the Port may be shifted or moved by the Port by means of a tug or otherwise, with all expenses incurred and all risk of damage for the account of such vessel.

11. Rafts, Barges, Scows, or River Craft

Rafts, barges, scows, or river craft may not be moored to wharves or piers or tied up to any vessel berthed without express permission of the Port.

12. Ship Maintenance Work

Limited ship maintenance work may be allowed at any marine terminal facility upon written permission from the Port. No spray painting or sandblasting of vessels will be permitted. Dockage rates for ship maintenance will be subject to negotiation. A completed Berth Application Form, Proof of Insurance, and Work Plan must be submitted to the Port of Portland Terminal Manager for consideration of the request, prior to granting of written permission. Any ship undergoing maintenance must possess a valid Certificate of Financial Responsibility and it must be on file with USCG. Any entity performing ship maintenance work must provide the Port with proof of insurance prior to the commencement of work.

SECTION III - BREAKBULK RULES

1. Service and Facilities Charge

The Port does not assess service and facilities charges at its marine terminal facilities. Fees for special services will be billed based on the services provided.

2. Direct Transfer Rates

Direct transfer rates apply against cargo loaded or discharged by vessels directly to or from open top railroad cars or self-propelled vehicles.

3. Oversight Operation

Oversight rates apply against cargo that is loaded or discharged by vessels direct to or from water or barge.

4. Wharfage

Wharfage is a charge assessed against either cargo or vessel on that cargo passing or conveyed over, onto, or under wharves or between vessels (to or from the water, barge, or lighter) when berthed at wharf or when moored in a slip adjacent to a wharf. Wharfage is the charge for use of a wharf and does not include charges for any other service. The tariff rate charged will be that rate in effect on the date the vessel arrives for cargo operations.

A. Wharfage Assessment

Wharfage will be assessed subject to the following provisions:

- (1) **Basis for Assessing Wharfage:** Wharfage is considered earned and is assessed irrespective of whether the cargo is loaded to a vessel. Wharfage rates are based upon the commodity description and classification as described in the vessel manifest. Rates are per K/T unless otherwise stated in individual tariff items. When the wharfage rate unit of measure is expressed in either C/Ms or K/Ts, the charge will be made on the unit of measure that is manifested by the vessel. However, if cargo is

TERMINAL TARIFF NO. 8

*(Cancels and replaces Terminal Tariff No. 7)
Effective: 03/01/16*

PORTLAND, OREGON

manifested on a unit basis, the wharfage will be billed on weight or measurement, whichever creates the greater revenue.

- (2) Wharfage Assessed Against River Barge Traffic: Wharfage is not assessed against cargo on river barges originating at or destined to points on the Willamette, Columbia, Snake, or Clearwater River systems. This rule applies only if the Port has already assessed wharfage on the affected cargo in its prior movement or if the Port will assess wharfage on subsequent movement of the cargo through the Port. Movements include foreign, domestic offshore trade, inter-coastal, and coastwise.
- (3) Wharfage Assessed Against Direct Transfer Services-Open Railcars or Trucks: All cargo moved directly from open railcars or trucks to vessels, or vice versa, is subject to full wharfage assessment. See specific item categories for rates.
- (4) Wharfage Assessed Against Overside Vessel Operations: Cargo discharged or loaded overside a vessel directly to or from another vessel, barge, raft, or the water, while the vessel is berthed or moored in a wharf slip, will be assessed wharfage at one-half the normal wharfage rates. This rule will not apply in cases when any other specific "overside" tariff rate is applicable.
- (5) Exceptions: Ship's stores, repair materials, and supplies, when intended for a vessel's own use, will be exempt from assessment of wharfage unless Port employees are required to receive and account for such supplies or stores on the wharf.
- (6) Dunnage, Lining Lumber, and Fuel: Dunnage for use in stowing cargo not loaded at Port wharves, lining lumber used in lining vessels for shipment of bulk commodities (as distinguished from dunnage lumber used in ordinary stowage), and fuel processed over the wharves are subject to wharfage and other appropriate charges.
- (7) Minimum charge: The minimum wharfage charge for any single B/L is \$10.00.

5. Control of Tracks – Order for Railcars – Release of Railcars, Etc.

The control of tracks within the Port's marine terminal facilities is the responsibility of the stevedore. As such:

- A. All railcar orders must be placed with the marine operating stevedore of the appropriate facility.
- B. No railcars are to be set or placed at a Port marine terminal facility without the appropriate terminal operator's consent.
- C. Loaded railcars are not to be pulled from the terminals until specifically released by the appropriate terminal operator.

6. Services Conditional

The Port reserves the right to refuse to perform services in connection with processing of cargo owned by, consigned to, or received from, persons, firms, or corporations who are involved in strikes or labor disputes. Refusal by the Port to complete such services does not entitle owners, shippers, consignees, or carriers of such cargo to waiver any charges or costs incurred. Also, the Port is not liable for any claim(s) for damages arising out of its refusal. Should these services be performed by the Port, its employees, or agents, and completion of the service is delayed or hindered by picketing, by a labor "slowdown", or by similar circumstances, all charges and costs associated with the service will be nonetheless assessed according to the rates, regulations, and rules of this tariff.

7. Between Open Railcars and Vessel

Loading or unloading of cargo either by ship's gear, shoreside, or water cranes directly between a vessel and open top railroad cars placed alongside the vessel will be considered a direct transfer operation. Unless otherwise specified, cargo handled in this manner will not be assessed loading or unloading charges by the Port. However, charges for cleaning, dunnaging, blocking or unblocking cars will be charged. The Port is not responsible for either the overloading or improper loading of cars or for the count or condition of cargo when it is handled by direct transfer.

The Port accepts no responsibility for consequences arising out of improper loading of any vehicle to heights, weights, and lengths in excess of the capacity of the vehicle and in excess of local, state, or federal regulations.
