SUN COUNTRY AIRLINES® ADDS SERVICE TO PORTLAND

The Hometown Airline will offer travelers from Minneapolis/St. Paul nonstop, seasonal flights to Portland

MINNEAPOLIS/ST. PAUL, Minn. – January 26, 2016 – Sun Country Airlines, the Twin Cities' hometown airline, is proud to announce new seasonal nonstop service from its hometown market of Minneapolis/St. Paul (MSP) to Portland, Oregon (PDX).

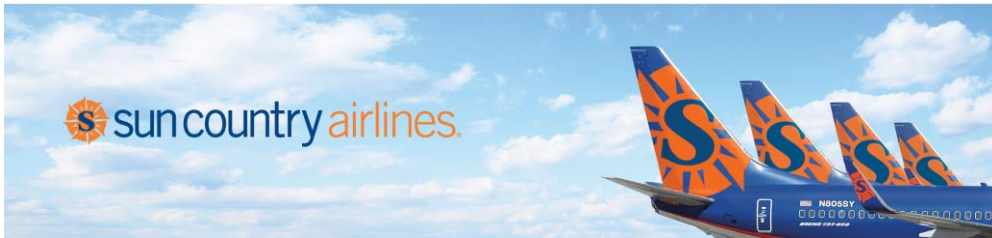

This new destination offers Sun Country travelers access to one of the country's most exciting cities. Often compared to the Twin Cities, Portland is famous for its beautiful green parks, bridges, and bicycle paths, as well as for its eco-friendliness, microbreweries, and coffeehouses. Not to mention quaint beach towns, the Columbia River Gorge with spectacular waterfalls, and Willamette Valley, best known for world-class pinot noir, are all located within 90 minutes of Portland.

Seasonal flights to Portland International Airport are now available for booking with service beginning June 9, 2016, out of Minneapolis/St. Paul Terminal 2. Connecting flights are also available from/to Boston, Washington, D.C., and New York. Flights will operate four to six days per week depending on the season.

With the addition of this new destination, Sun Country Airlines will service a total of 36 destinations throughout the year.

"We're delighted to be able to offer our customers this service to Portland," said Zarir Erani, President and CEO, Sun Country Airlines. "Our hometown shares so much of the vibrancy and culture that makes Oregon great, so it feels natural for the Twin Cities' airline to serve Portland International Airport. We are excited to continue to expand our list of cities served for our customers."

"We are excited to welcome Sun Country's scheduled service to PDX this summer," said David Zielke, Director of Air Service Development for Portland International Airport. "This now gives Portland another convenient option for business or leisure travel to the Twin Cities area."
