33. Passenger Traffic Fee

In addition to other tariff provisions, the terms and conditions of this item apply and charges are assessed to cruise ships.

When the trip covers a continuous cruise on a vessel from Portland returning to Portland, one fee only applies.

SECTION II - DOCKAGE RULES

1. Dockage Definition

The charge assessed against the vessel for berthing at a wharf, pier, bulkhead structure, or bank or for mooring a vessel so berthed.

2. Basis For Establishing the Vessel's Length

For all berths except grain elevators, dockage charges shall be based upon the vessel's length overall as published in "Lloyd's Register of Shipping." Length overall shall be construed to mean the linear distance, expressed in meters or feet, from the most forward point of the bow to the aftermost point on the stern of the vessel, measured parallel to the baseline of the vessel. If the length overall of the vessel does not appear in "Lloyd's Register of Ships," the Port may obtain the length overall from the "Vessel's Register," or measure the vessel. For grain elevators only, Dockage charges shall be based on gross registered tonnage (GRT) as published in the most current edition of "Lloyd's Register of Shipping" at the time the vessel is berthed. Should tonnage figures not be available from that source, the Port may accept information from the "Vessel's Register."

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

3. Dockage Period

The Dockage period is calculated by the period of time upon which dockage will be assessed and shall commence when the first line is made fast to a wharf pier, seawall, slip, or other mooring facility or when a vessel is made fast to a vessel so berthed; or when a vessel comes within, or moors within, a slip; and shall continue until such vessel is completely free (last line free) from and has vacated such berth or slip. No deductions will be allowed for Saturdays, Sundays, holidays, or because of weather or other conditions. Dockage periods are calculated in 24-hour periods beginning with the first line. Idle time from different dockage periods may not be accumulated to constitute a lay period. The number of dockage periods billed, when lay status is involved, will not exceed the total number of dockage periods the vessel is on berth. When lay status is involved, the calculation of total dockage charges will be first based on the number of working periods and then lay periods, if any. For vessels charged dockage the data necessary to charge dockage (data sheet, statement of facts, or other) must be sent to the Port no later than 3 days after departure of the vessel. If this data is not received within the 3 days, a billing/rebilling fee will be assessed.

4. Charge On Vessel Shifting

When a vessel is shifted directly from one wharf (berth) to another wharf (berth) operated by the Port, the total time at such berths will be considered together in computing the dockage charge.

5. Ocean-Going Barges

Ocean-going barges are considered within the definition of vessels.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

6. Dockage Charge – Vessel on Lay Status

To qualify for 50% of the regular dockage rate, the vessel must be idle at its working berth waiting to discharge and/or load cargo. For vessels at a working berth which have operations interrupted for 1 or more consecutive 24-hour periods due to lack of cargo or labor availability, lay status may also be granted. The vessel must have attempted to and been willing to work these hours. Lay status requests at working berths should be received by the Port prior to vessel departure. To qualify for 25% of the regular dockage rate the vessel must be idle at a non-working berth. A vessel may be permitted to moor at idle port marine terminal berths when such berths are available. Lay status for non-working berths must be submitted by agent to the Port, Operations General Manager, or their designee prior to vessel arrival on berth. If the request is not received prior to the vessel arrival on berth a billing/rebilling fee will be assessed. Upon approval, copy of request will be forwarded to Billing Department who will apply lay rates. If no approval is granted by the Port, the Billing Department will apply dockage at the full dockage rates. Lay status MAY be granted when berths are available and at the discretion of the Port's Operations General Manager or their designee. Upon vessel's departure from berth, agent will submit Vessel Activity Report, Supercargo Report, Statement of Facts, or other official documentation describing activity of loading/discharge pertinent to vessel stay, to the Port's Billing Department to aid in application of lay status. Such vessels and unmanned barges shall be charged 50% or 25% of the applicable dockage charge. For grain elevators, dockage rates for regular and lay status only apply with no further discount.

For vessels on lay status for 10 consecutive days and longer or vessels performing ship maintenance work upon written permission from the Port's Operations General Manager or their designee, prior to the idle period, a special lay status may be granted when berths are available.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

7. Dockage Charge – Tug Boats on Lay Status

Lay status, which is defined as waiting for a berth to discharge and/or load cargo, take on provisions, or make repairs, may be permitted to moor at idle Port marine terminal berths when such berths are available. Lay status may be granted with a written request to the Port and written permission from the Port prior to the idle period. Lay status MAY be granted when berths are available and at the discretion of the terminal manager. Tug boats which are granted lay status will be charged per 24-hour period or fraction thereof. The first 12-hour period will be free, then lay status charges will begin.

8. Berth Assignments

Berth Assignments will be issued at the sole discretion of the Port to the owners, agents, or operators of vessels for use of a specific berth by a specific vessel. Preferential use of berths and cranes at Terminal 6 (T6) is available to ocean carriers through contractual arrangements with the Port and take precedence over all other berth assignments.

9. Vessels Required to Obtain Berth Assignments

No vessel will be permitted to berth at a wharf or marine terminal facility of the Port without a prior berth assignment being granted by the Port. Applications for berth assignments must be made as far in advance of the arrival of vessel as possible and must specify arrival and departure dates and the nature and quantity of the cargo to be loaded or discharged.

10. Vessels Required to Vacate Berths

The Port reserves the right to order a vessel to shift its position at a wharf, to change berths, or to vacate a berth when:

- A. Not actually engaged in loading or discharging cargo.
- B. When occupying a berth beyond the time limitation named in the assignment permit.
- C. When a vessel holding an agreement granting the preferential use at that berth at that time presents itself at the berth.

Any vessel refusing or failing to shift, change berth, or vacate berth at request of the Port may be shifted or moved by the Port by means of a tug or otherwise, with all expenses incurred and all risk of damage for the account of such vessel.

11. Rafts, Barges, Scows, or River Craft

Rafts, barges, scows, or river craft may not be moored to wharves or piers or tied up to any vessel berthed without express permission of the Port.

12. Ship Maintenance Work

Limited ship maintenance work may be allowed at any marine terminal facility upon written permission from the Port. No spray painting or sandblasting of vessels will be permitted. Dockage rates for ship maintenance will be subject to negotiation. A completed Berth Application Form, Proof of Insurance, and Work Plan must be submitted to Port of Portland, Marine Operations, Fax Number 503-240-2009, for consideration of the request, prior to granting of written permission. Any ship undergoing maintenance must possess a valid Certificate of Financial Responsibility and it must be on file with USCG. Any entity performing ship maintenance work must provide the Port with proof of insurance prior to the commencement of work.

SECTION III - BREAKBULK RULES

1. Service and Facilities Charge

The Port does not assess service and facilities charges at its marine terminal facilities. Fees for special services will be billed based on the services provided.

2. Direct Transfer Rates

Direct transfer rates apply against cargo loaded or discharged by vessels directly to or from open top railroad cars or self-propelled vehicles.

3. Overside Operation

Overside rates apply against cargo that is loaded or discharged by vessels direct to or from water or barge.

4. Wharfage

Wharfage is a charge assessed against either cargo or vessel on that cargo passing or conveyed over, onto, or under wharves or between vessels (to or from the water, barge, or lighter) when berthed at wharf or when moored in a slip adjacent to a wharf. Wharfage is the charge for use of a wharf and does not include charges for any other service. The tariff rate charged will be that rate in effect on the date cargo is received.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

Effective: 07/01/10

PORTLAND, OREGON

A. Wharfage Assessment

Wharfage will be assessed subject to the following provisions:

- (1) **Basis for Assessing Wharfage:** Wharfage is considered earned and is assessed irrespective of whether the cargo is loaded to a vessel. Wharfage rates are based upon the commodity description and classification as described in the vessel manifest. Rates are per K/T unless otherwise stated in individual tariff items. When the wharfage rate unit of measure is expressed in either C/Ms or K/Ts, the charge will be made on the unit of measure that is manifested by the vessel. However, if cargo is manifested on a unit basis, the wharfage will be billed on weight or measurement, whichever creates the greater revenue.
- (2) **Wharfage Assessed Against River Barge Traffic:** Wharfage is not assessed against cargo on river barges originating at or destined to points on the Willamette, Columbia, Snake, or Clearwater River systems. This rule applies only if the Port has already assessed wharfage on the affected cargo in its prior movement or if the Port will assess wharfage on subsequent movement of the cargo through the Port. Movements include foreign, domestic offshore trade, inter-coastal, and coastwise.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

- (3) Wharfage Assessed Against Direct Transfer Services-Open Railcars or Trucks: All cargo moved directly from open railcars or trucks to vessels, or vice versa, is subject to full wharfage assessment. See specific item categories for rates.
- (4) Wharfage Assessed Against Overside Vessel Operations: Cargo discharged or loaded overside a vessel directly to or from another vessel, barge, raft, or the water, while the vessel is berthed or moored in a wharf slip, will be assessed wharfage at one-half the normal wharfage rates. This rule will not apply in cases when any other specific "overside" tariff rate is applicable.
- (5) Exceptions: Ship's stores, repair materials, and supplies, when intended for a vessel's own use, will be exempt from assessment of wharfage unless Port employees are required to receive and account for such supplies or stores on the wharf.
- (6) Dunnage, Lining Lumber, and Fuel: Dunnage for use in stowing cargo not loaded at Port wharves, lining lumber used in lining vessels for shipment of bulk commodities (as distinguished from dunnage lumber used in ordinary stowage), and fuel processed over the wharves are subject to wharfage and other appropriate charges.
- (7) Minimum charge: The minimum wharfage charge for any single B/L is \$10.00.

5. Control of Tracks – Order for Railcars – Release of Railcars, Etc.

The control of tracks within the Port' marine terminal facilities is the responsibility of the stevedore. As such:

- A. All railcar orders must be placed with the marine operating stevedore of the appropriate facility.
- B. No railcars are to be set or placed at a Port marine terminal facility without the appropriate terminal operator's consent.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

- C. Loaded railcars are not to be pulled from the terminals until specifically released by the appropriate terminal operator.

6. Services Conditional

The Port reserves the right to refuse to perform services in connection with processing of cargo owned by, consigned to, or received from, persons, firms, or corporations who are involved in strikes or labor disputes. Refusal by the Port to complete such services does not entitle owners, shippers, consignees, or carriers of such cargo to waiver any charges or costs incurred. Also, the Port is not liable for any claim(s) for damages arising out of its refusal. Should these services be performed by the Port, its employees, or agents, and completion of the service is delayed or hindered by picketing, by a labor "slowdown", or by similar circumstances, all charges and costs associated with the service will be nonetheless assessed according to the rates, regulations, and rules of this tariff.

7. Between Open Railcars and Vessel

Loading or unloading of cargo either by ship's gear, shoreside, or water cranes directly between a vessel and open top railroad cars placed alongside the vessel will be considered a direct transfer operation. Unless otherwise specified, cargo handled in this manner will not be assessed loading or unloading charges by the Port. However, charges for cleaning, dunnaging, blocking or unblocking cars will be charged. The Port is not responsible for either the overloading or improper loading of cars or for the count or condition of cargo when it is handled by direct transfer.

8. Truck Loading and Unloading

A. Definition and Conditions

Truck loading and unloading refers to the service of loading or unloading unitized cargo into highway trucks or trailers.

SECTION IV - CONTAINER CARGO RULES

1. General Definitions

A. Containers

Containers are rigid or collapsible, with or without wheels, of such type, size, and construction as to meet requirements outlined in ocean carrier's tariff.

B. Containerized Cargo

Containerized cargo is any cargo which is shipped in ocean marine containers.

C. Container Yard (CY)

The location designated within the marine container terminal where:

- (1) Containers in transit between vessel and inland carrier are held or assembled; and
- (2) Loaded or empty containers are received from or delivered to inland carriers.

D. Vessel Rehandling

Vessel rehandling is separate from and in addition to vessel throughput. It applies to containers that do not transit the CY and are not billed as throughput.

- (1) The single movement of a container from a vessel slot or cell to another position in stowage on the same vessel and voyage is classified as vessel rehandling.
- (2) The movement of a container from cell to dock or deck and then later to cell on the same vessel and voyage is a separate move different and distinct from a cell-to-cell operation.

TERMINAL TARIFF NO. 8

(Cancels and replaces Terminal Tariff No. 7)

E. Yard Rehandling

Yard rehandling is defined as extra movement of containers within the container facility. These rehandles include sorting, extra stacking or unstacking, extra movement to or from chassis, and extra movements to or from holding locations. The tariff for rehandling applies each time an extra movement is required to provide whatever services are requested by the customer.

F. Gates Ins and Out

This service refers to receipt or delivery of containers at the gate, as well as loading or unloading of containers or chassis to inland carrier's equipment that is specifically located within the CY and is not associated with a throughput move. This service also includes container stacking, unstacking, loading or unloading of inland carrier's equipment that is not held in a specified yard location or is not being held for vessel dispatch.

G. Transshipped

This service refers to loaded containers that are discharged from one vessel and loaded to another vessel under the same steamship line's control at the same terminal.

H. Rolled

A container is considered rolled if the booking changes from one vessel to another (or from one discharge port to another) once the container is received into the yard. The Rolled Container Fee will apply for all rolled containers, whether or not the container is moved. Charges are assessed against the booking carrier.

2. **Throughput**

The term "throughput" denotes the single movement of a container between vessel stowage on a cellular vessel and inland carrier and incorporates the following:

3. Wharfage

A. Definition

Wharfage is a charge assessed against the cargo or vessel on all cargo passing or conveyed over, onto, or under wharves or between vessels (to/from water, barge or lighter) when berthed at wharf or when moored in slip adjacent to wharf. Wharfage is solely the charge for use of wharf and does not include charges for any other service.

The wharfage rate charged will be that rate in effect on the vessel cargo departure date.

B. Wharfage Assessment

Wharfage will be assessed subject to the following provisions:

- (1) Wharfage shall be considered earned and will be assessed whether or not the cargo is eventually loaded to a vessel.
- (2) Wharfage rates will be based on the commodity description and classification as described in the vessel manifest.
- (3) Partial container loads will be assessed at the full container wharfage rates.
- (4) Wharfage for container sizes not shown will be assessed at the next higher container size shown.
- (5) Cargo shall be considered containerized cargo for wharfage purposes if at any time during its transport across Port facilities the cargo is within a container.

C. Overload Containers

E. Exceptions

Ship's stores, fuel handled overside to a vessel and repair materials and supplies, when intended for a vessel's own use, will be exempt from assessment of container wharfage unless Port employees are required to receive for such supplies or stores on the wharf.

B. Conditions Governing Acceptance of Cargo for Storage

Storage of cargo interchanged with or between water carriers at the Port's marine terminal facilities at Portland, Oregon, will be permitted when space is available, providing arrangements are made prior to the arrival of the cargo. "Arrangements" are defined as a written request submitted to the Port by the prospective storer describing the cargo, type of storage required (covered, open, bonded), length of time storage will be necessary, and name and address of the party responsible for storage payment, and accepted by the Port no later than 24 hours prior to cargo's arrival.

If rehandling, repiling, shifting, or yarding of cargo is required for storage, it will be billed at the tariff labor rates and equipment rates. Invoices will be issued against the owner of the cargo at the time of move.

If drayage is required to make the cargo available for storage, the drayage expense will be in addition to any storage charges and will be invoiced to the owner of the cargo.

C. Responsibility for Storage Charges

Storage charges shall be assessed against the owner of record for cargo in storage on the first day of the month for which the storage charges accrue. It shall be the responsibility of the cargo owner to notify the Port in writing whenever a change of title takes place giving the complete name and address of the new owner and the date title change takes place.

D. Computing Monthly Storage Charges and Bonded Storage

Storage charges are payable in advance and will be computed on the following basis after the expiration of free time:

Condition of Berth Reservation

In accordance with Federal Maritime Commission Docket 83-48, Alaska Maritime Agencies, Inc., et al. v. Port of Anacortes, et al., and Tariff Rule 113 in the Port of Portland Tariff No. 7, amendments and reissues thereto, all applications for vessel berth reservation shall be made in the form specified by the Port, and will require the timely filing of the financial responsibility information shown on the reverse, completed in accordance with, and otherwise governed by, the terms and conditions set forth below:

1. Except where and to the extent waived pursuant to Paragraph 2 below, terms of payment for all applicable port charges shall be cash in advance. A cash deposit or acceptable security in an amount equal to 125 percent (125%) of the estimated applicable charges will be required to be posted with the Port six days prior to the vessel's scheduled arrival, or at such other time as may be authorized or directed by the Port, but in all cases in advance of actual services rendered. In any case in which a cash deposit has been posted, any excess thereof, after satisfaction of all applicable port charges, shall be promptly refunded by the Port to the party posting same.
2. The Port may waive the requirement of cash in advance as to all or any category or categories of its anticipated port charges when the party responsible for such charges has been identified by the Agent to the satisfaction of the Port; and
 - a. That party responsible has established credit worthiness acceptable to the Port; or
 - b. Adequate security, acceptable to the Port, in an amount equal to 125 percent (125%) of the applicable estimated port charges, has been posted; or
 - c. The agent requesting the berth, or another entity, in each case acceptable to the Port as credit worthy, has personally accepted financial responsibility for the applicable charges.

The submission of this form, signed by the Agent, shall constitute the Agent's attestation as to the accuracy of the information herein supplied, based upon and to the extent of information made available to the Agent at the time of submission; and the Agent shall be held personally liable to the Port for any financial loss suffered by the port as a result of the agent's failure so to report accurately.
